In 1921-22, the P.P.A. was resuscitated by Messrs. P. Bromfield and J. J. Payne, who were very quickly joined by Hon. Ivor Montagu and Mr. A. F. Carris. The National Championships were run that season, and entries received from all parts of the country. Difficulties soon arose, however, not only in regard to the title, when it was discovered that Ping-Pong was a registered trade name, but also through the Association being unrepresentative of the provincial centres. The old Ping-Pong Association therefore dissolved and re-formed under the title of "The Table Tennis Association." For some time the new body was hampered by difficulties, and owing to all their energies being devoted to formulating standard rules, popularising the game, etc., no attempt to form a democratic governing body could be made.

At the Annual Meeting in 1925, an emergency committee with Mr. Montagu as President, and Mr. W. J. Pope as Hon Secretary, were authorised to redraft the constitution. In 1926, the revised regulations were circularised in the provinces, and arrangements were made to call a National Delegate Conference. This was held in London, on April 24th, 1927, and the new constitution, which confirmed the provisional appointments, and provided for the new title, The English Table Tennis Association, was adopted.

RULES AND REGULATIONS.

PRESIDENT'S REPORT.

SEASON 1932-33.

It is indeed a pleasure to, once again, address you after two years of office as your President. On one or two occasions, I have been very disappointed at being unable to attend events I should have liked to have witnessed. I did however, enjoy my visit to the Pavilion Gardens, Buxton, for the English Championships, and shall always remember the wonderful performance of Adrian Haydon in the final of the singles against the renowned G. V. Barna. Just that extra fraction of good fortune would have seen our championship return once more after so many years abroad. The championships as a whole were very enjoyable, and our thanks are due to all who had the event in hand.

At Baden, in the World Championships, I am pleased to say that England made amends for the low position of last year. With such a team as we sent over—Haydon, Jones, Millar, Rimer and Brook—we should, next season, do even better, for our players are sure to have benefitted by the extensive tour of the foreign players during February and March last. These tours are, we know a great expense, but for giving our players at home, the experience of playing against our foreign friends, they are invaluable. What better proof have we of this, other than the match, England versus Hungary, at the Memorial Hall, London? To those officials who organised this match, we must indeed be grateful, and to the players I extend my heartiest congratulations for their wonderful, and very nearly successful, performance.

With the retirement from office of our Chairman, Mr. Montagu, and our Secretary, Mr. Decker, must go our thanks for services rendered. It had been hoped to have Mr. Montagu with us for another season, but pressure of duties occasioned by his being with the International Federation, made this impossible. Many of us know the value which Mr. Montagu has been and much regret his retirement. To our new officials, Mr. Corti Woodcock (Chairman) and Mr. Siddron (Secretary), I wish a most successful term of office, while to our old friends Mr. Vint (Treasurer) and Mr. Pope I tender my sincerest thanks.

In conclusion, may I wish every player or official, a season full of success and good luck.

H. OLDROYD, *President.***TREASURER'S REPORT.**

SEASON 1932-33.

The Income and Expenditure Account for the year ended 30th June, 1933, published on another page of the Handbook, unfortunately reveals a deficit of £34 14s. 8½d. This is entirely due to the loss caused by the Tour of the foreigners in the early part of 1933. The figures relating to the Tour are as follows:—

	£	s.	d.
Expenditure	236	12	4
Income	196	17	10
Deficiency	£39	14	6

These tours, although they are a drain on our funds, undoubtedly do a tremendous amount towards the development of the game, and we must look on the money spent in this direction as being for propaganda purposes.

It will be seen from the following statement that the membership of the Association is still increasing:—

Season.	Affiliated Leagues.	Total Club Membership.
1932-33	55	931
1931-32	38	714
1930-31	32	588

The Executive Committee feel that it is still necessary to appeal for donations towards the cost of sending our teams to Paris to compete in the World Championships, especially as we have the additional expense of including for the first time a women's team; therefore it is hoped that every League, Club and Player will make some contribution towards this very considerable but necessary expense.

A. K. VINT,
Hon. Treasurer.

APPENDIX A.

* Alteration or addition in force season 1934-35.

THE RULES OF TABLE TENNIS.

(As adopted by the International Table Tennis Federation).

Singles.

1. The Table.—The table shall be in surface rectangular, 9ft. in length, 5ft. in width; it shall be supported in such a way that its upper surface shall be 2ft. 6ins. above the floor, and shall lie in a horizontal plane.

It shall be made of solid hard lin. wood or shall yield a uniform bounce of not less than 8ins. and not more than 9ins. when a standard ball is dropped from a height of 12ins. above its surface.

The upper surface of the table shall be termed the "playing surface"; it shall be non-reflecting, of a dark colour with a white line $\frac{1}{4}$ in. broad along each edge.

The lines at the 5ft. edges or ends of the playing surface shall be termed "end lines." The lines at the 9ft. edges or sides of the playing surface shall be termed "side lines."

2. The Net and its Supports.—The playing surface shall be divided into two courts of equal size by a net running parallel to the end lines and 4ft. 6ins. from each. The net shall be 6ft. in length; its upper part along its whole length shall be 6 $\frac{1}{4}$ ins. above the playing surface; its lower part along the whole length shall be close to the playing surface. The net shall be attached at each end to an upright post 6 $\frac{1}{4}$ ins. high; the outside limits of each post shall be 6ins. outside the side line on the same side.

3. The Ball.—The ball shall be spherical. It shall be made of celluloid, pale in colour; it shall not be less than 4 $\frac{1}{8}$ ins. nor more than 4 $\frac{3}{8}$ ins. in circumference; it shall not be less than 2/27ozs. nor more than 2/25ozs. in weight; *it shall not be less than 37 grains (2.40 grammes) nor more than 39 grains (2.53 grammes) in weight.

4. The Racket.—The racket may be any material, size, shape, or weight.

5. The Scoring of Points.—A game shall be won by the player who first wins 21 points, unless both players shall have scored 20 points, when the winner of the game shall be he who first wins two points more than his opponent.

6. The Choice of Ends and Service.—The choice of ends and the right to be server or striker-out in every game shall be decided by toss, provided that, if the winner of the toss choose the right to be server or striker-out, the other player shall have the choice of ends, and vice versa, and provided that the winner of the toss may, if he prefer it, require the other player to make the first choice.

7. The Change of Ends and Service.—After five points the striker-out shall become the server, and the server the striker-out, and so on after each five points until the end of the game or the score 20 all. At the score 20 all the striker-out shall become the server, and the server the striker-out, and so on after each point until the end of the game. The player who served first in a game shall be striker-out first in the immediately subsequent game, and so on until the end of a match.

The player who started at one end in a game shall start at the other in the immediately subsequent game, and so on until the end of the match. Where the match consists of only one game, or, where it consists of more than one game, in the deciding game of the match, the players shall change ends at the score ten being reached by either player. *See Rule 22.

8. The Order of Play.—The server shall first make a good service, the striker-out shall then make a good return and thereafter server and striker-out shall each alternately make a good return.

9. A Good Service.—The service shall be delivered by the server projecting or dropping the ball by hand only, without deliberate deformation of the surface, into the air. The ball shall then be struck so that it touch first the server's court and then, passing directly over or round the net, touch the striker-out's court.

At the moment of the impact of the racket on the ball in service, both shall be behind the end line of the server's

court and between an imaginary continuation of the side lines. (Note, that if the player, in attempting to serve, miss the ball altogether, he is penalised because a good service has not been made off the ball already in play.)

10. A Good Return.—A ball having been served or returned in play shall be struck by the player so that it pass directly over the net and touch directly the opponent's court; provided that, if the ball, having been served or returned in play, returns with its own impetus over the net or round the net, it may be struck, while still in play, by the player so that it touch directly the opponent's court.

11. A Let.—The rest† is a let:

(a) If the ball served in passing over the net touch it or its supports, provided the service be otherwise good; *or be volleyed by the striker-out.

(b) If a service be delivered when the striker-out is not ready, provided, always, that he may not be deemed to be unready if he attempts to strike at the ball.

(c) If either player be prevented by an accident, not under his control, from serving a good service or making a good return.

(d) If either player lose the point, as provided in Law 12 (c), (d), (e), or Law 13, owing to an accident not within his control.

12. A Point.—Either player shall lose a point:

(a) If he fail to make a good service except as provided in Law 11.

(b) If a good service or a good return having been made by his opponent, he fail to make a good return, except as provided in Law 11.

(c) If he, or his racket, or anything that he wears or carries, touch the net or its supports while the ball is in play.

(d) If he, or his racket, or anything that he wears or carries, move the playing surface while the ball is in play.

(e) If his free hand touch the playing surface while the ball is in play.

† The term rest in this connection implies "rally," i.e., all the play covering one point. See first definition under Rule 15.

13. A Point.—Either player shall lose the point:

(a) If before the ball in play shall have passed over the end lines or side lines not yet having touched the playing surface on his side of the table since being struck by his opponent, it come in contact with him or anything that he wears or carries.

(b) If at any time he volley the ball. *Except as provided in Rule 11 (a).

14. In Play.—The ball is in play from the moment at which it is projected or dropped from the hand in service until:

(a) It has touched one court twice consecutively.

(b) It has, except in service, touched each court alternately without having been struck by the racket intermediately.

(c) It has been struck by either player more than once consecutively.

(d) It has touched either player or anything that he wears or carries, except his racket or his racket hand below the wrist.

(e) On the volley it come in contact with the racket or the racket hand below the wrist.

(f) It has touched any object other than the net supports or those referred to above.

15. Further Definitions.—The period during which the ball is in play shall be termed a rest.

A rest the result of which is scored shall be termed a point.

A rest the result of which is not scored shall be termed a let.

The player who first strikes the ball during the rest shall be termed the server.

The player who next strikes the ball during a rest shall be termed the striker-out.

If the ball, in passing over the net, or round the net, touch it or its supports, it shall, nevertheless, be considered to have passed directly, except as referred to in Law 11 (a).

If the ball in play come in contact with the racket or racket hand, not yet having touched the playing surface on one side of the net since last being struck on the other side, it shall be said to have been volleyed.

The racket hand is the hand carrying the racket; the free open hand is the hand not carrying the racket.

Doubles.

16.—The above laws shall apply in the Doubles Game except as below.

17. The Table.—The surface of the table shall be divided into two parts by a white line $\frac{1}{4}$ in. broad, running parallel with the side lines and distant from each of them 2ft. 5in. This line shall be termed the service-line. The part of the table surface on the nearer side of the net and the right of the service-line in respect to the server, shall be called the server's right half court, that on the left in respect to him the server's left half-court. The part of the table surface on the farther side of the net, and the left of the service-line in respect to the server, shall be called the striker-out's right half-court, that on the right in respect to the server the striker-out's left half court.

18. A Good Service.—The service shall be delivered as otherwise provided in Law 9, and so that it touch first the server's right half court or the centre line on his side of the net, and then, passing directly over or round the net, touch the striker-out's right half court or the centre line on his side of the net.

19. The Choice of Order of Play.—The pair who have the right to serve the first five services in any game shall decide which partner shall do so, and the opposing pair shall then decide similarly which shall first be striker-out.

20. The Order of Service.—The first five services shall be delivered by the selected partner of the pair who have the right to do so, and shall be received by the selected partner of the opposing pair. The second five services shall be delivered by the striker-out of the first five services and received by the partner of the server of the first five services. The third five services shall be delivered by the partner of the server of the first five services and received by the partner of the striker-out of the first five services. The fourth five services shall be delivered by the partner of the striker out-of the first five services and received by the server of the first five services. The fifth five services shall be delivered as the first five services. And so on, in sequence, until the end of

the game or the score 20 all, when the sequence of serving and striking-out shall be uninterrupted, but each player shall serve only one service in turn until the end of the game.

In a one game match, or the deciding game of the match of more than one game, the pair that served the first five services have the right to alter their order of striking out or that of their opponents at the score 10.

21. The Order of Play.—The server shall first make a good service, the striker-out shall then make a good return, the partner of the server shall then make a good return, the partner of the striker-out shall then make a good return, the server shall then make a good return, and thereafter each player alternately in that sequence shall make a good return.

22. Out of Order of Service.—If a player serve out of his turn, the player who ought to have served shall serve as soon as the mistake is discovered, unless a group of five services shall have been completed before such discovery, when the service in the subsequent groups of services shall continue, in the same order, as if the sequence had not been discontinuous. In any circumstances, all points scored before the discovery shall be reckoned.

23.—Out of Order of Striking-out.—If a player act as striker-out out of his turn, the player who ought to have acted as striker-out shall be striker-out as soon as the mistake is discovered, unless a group of five services shall have been completed before such discovery, when the order of striking-out shall continue in the subsequent group of services as if the sequence had not been discontinuous. In any circumstances, all points scored before the discovery shall be reckoned.

APPENDIX B.

KNOTTY POINTS.

Decisions of the International Federation.

1. Edge Balls.—The phrase, "Table Surface" is to be interpreted as including the top edges and corners of the table-top, and a ball in play which strikes these latter is therefore good and still in play; though if it strikes evidently the side of the table-top below the edge, it becomes dead and counts against the last striker.

2. Ball Returned with Empty Hand.—If a player drop his racket, he cannot return the ball with empty hand. (See definition, "the racket hand is the hand carrying the racket.")

3. Racket Thrown at Ball.—If in returning the ball the racket leave the player's hand, it is a good return only if it were still in his hand at the moment of contact with the ball (see Law 10, "a ball . . . shall be struck"), and if it does not touch the net or move the table surface (Law 12 c, d) before the ball is out of play.

4. Finger-spin in Service.—

(a) Finger-spin *may* be imparted to the ball in service by projecting it by hand into the air and then striking it (Law 9); it *may not be* imparted by holding the ball and rubbing the racket surface against it before it leaves the hand (Law 9, and double-hit, Law 14 c).

(b) No artificial aid must be worn on the fingers to increase finger-spin; a rubber thumb-stall or finger-stall violates Law 10 "projecting or dropping the ball by hand only," since more than the hand is used. The umpire should however, of course use discretion respecting a merely technical violation caused by a stall or glove worn through injury, and not employed to increase service-spin.

(c) Distinction should be made between that measure of deformation physically inseparable from striking or pressing a resilient object, and a deliberate deformation executed to alter the shape of the surface to secure improved grip. The latter may invariably be distinguished by a sharp click of celluloid, audible as the surface resumes convexity on leaving the hand, and in no way resembling the finger snap sound of legitimate finger spin.

5. Missed Service.—If a player in attempting to serve miss the ball altogether, it is a lost point (Law 14) because the ball was in play from the moment it left the server's hand, and a good service has not been made of the ball already in play.

6. Volleyed Net Service.—A volley is a lost point even if it occurs on a service ball that has touched the net in its flight. (See definition of volley, and definition of let). Such a service cannot be a let because, although it has touched the net, it is not otherwise good, i.e. has not directly touched the striker's half table surface. *A net service is a let not only if otherwise good, but also if it be volleyed by the striker-out.

7. Ball Fractured in Play.—If the ball split or become otherwise fractured in play, *affecting a player's return*, the rest is a let (Law 11 c). It is the umpire's duty to stop play, recording a let, when he has reason to believe that the ball in play is fractured or imperfect; and to decide those cases in which the faulty ball is clearly fractured in actually going out of play, and in no way handicaps the player's return, when the point should be scored. In all cases of doubt, however, he should declare a let.

8. Fixtures.—A moving spectator, a neighbouring player, a sudden noise, i.e., any neighbouring object *in movement* (except a partner) should be regarded as an accident not under control (Law 11 c), interference from which implies a let. A stationary spectator, fixed seating, the umpire, the light, a nearby table, a continuous sound of even volume, i.e., any *relatively constant or motionless* hazard, should not be so regarded, and complaint against interference from it during play should be regarded as void.
