HISTORY.

Following upon the great popularity of the original Ping-Pong in the early part of the present century, the Ping-Pong Association was formed in 1902, to organise championships and tournaments all over the country, but chiefly in London. The "boom" year was 1904, but apparently it was only a temporary craze, as, although the P.P.A. was still in existence in 1905, it appears to have collapsed during that season. Whilst the game seems to have died out in the home counties, it was apparently still being played in the provinces but without any governing body, championships, or representative matches.

In 1921-22, the P.P.A. was resuscitated by Messrs. P. Bromfield and J. J. Payne, who were very quickly joined by Hon. Ivor Montagu and Mr. A. F. Carris. The National Championships were run that season, and entries received from all parts of the country. Difficulties soon arose, however, not only in regard to the title, when it was discovered that Ping-Pong was a registered trade name, but also through the Association being unrepresentative of the provincial centres. The old Ping-Pong Association therefore dissolved and re-formed under the title of "The Table Tennis Association." For some time the new body was hampered by difficulties, and owing to all their energies being devoted to formulating standard rules, popularising the game, etc., no attempt to form a democratic governing body could be made.

At the Annual Meeting in 1925, an emergency committee, with Mr. Montagu as President, and Mr. W. J. Pope as Hon. Secretary, were authorised to redraft the constitution. In 1926, the revised regulations were circularised in the provinces, and arrangements were made to call a National Delegate Conference. This was held in London, on April 24th, 1927, and the new constitution, which confirmed the provisional appointments, and provided for the new title, The English Table Tennis Association, was adopted.

The first Chairman and Hon. Secretary were, of course, Mr. Montagu and Mr. Pope, respectively. They stayed in office for some years, and were together primarily responsible for establishing the new national body on sound foundations. They worked prodigiously hard until Mr. H. M. Bunbury, of Manchester, assumed the Chairmanship in 1929, Mr.

Montagu being appointed President. Mr. D. W. Poupard became Secretary one year later, after Mr. B. L. Hookins, of Pontefract, had had a brief term in that capacity. Mr. H. Oldroyd, also of Manchester, was elected President in 1931, and still retains very worthily the dignity of his office. Mr. Montagu returned to the chair in 1932, with Mr. G. W. Decker as Secretary; these two being succeeded in September, 1933, by Mr. C. Corti Woodcock, of London, and Mr. J. Siddron, of Manchester, respectively. The last mentioned appointments were renewed in April, 1934, together with that of Mr. A. K. Vint, of Hastings, Hon. Treasurer since 1931. Interesting names appearing on the list of twenty-five Vice-Presidents include Messrs. Pope, Bunbury, Bromfield, Perry (father of our ex-world champion, Fred J. Perry), Swann and Poupard, of Manchester, Sir Leonard Lyle, Bt. (one-time Chairman of the L.T.A.) and Mr. A. H. Williams, one of the games pioneers in the very early days. In the last group, recently elected, were further valuable additions in the persons of the Dowager Lady Swaythling, Mr. A. F. Carris, and Mr. P. E. Warden.

The progress of the E.T.T.A. dating from the inaugural congress has been very rapid as the following figures reveal. 1927-28, 19 Leagues; 1928-29, 21; 1929-30, 23; 1930-31, 32; 1931-32, 38; 1932-33, 52; 1933-34, 71; and now, nearing the middle of season 1934-35, our strength is 99 Leagues, 1,654 Clubs, and approximately 30,000 individual registered members. Of the 22 National Table Tennis Associations to-day, comprising the International Table Tennis Federation, ours is by far the biggest, as indeed it is also the biggest of all indoor sports organisations in this country at the present time. England has at last become "Table Tennis conscious," and the game is now part and parcel of the life, interest and exercise of English men and women of all ages.

This season, after an interval of eight years, the World Championships Congress returns to England. The E.T.T.A. is faced not only with a gigantic task, but with a vital responsibility to the visiting foreigners, the players and the public. The aggregate crowds are expected to exceed 50,000, and there is every hope that for the first time in its history Table Tennis—still an entirely amateur sport—will finally win its place in the public favour, not only as a grand game, but a wonderful, thrilling spectacle.

THE PRESIDENT'S REPORT.

SEASON 1934-35.

I am very pleased to hear from the Secretary that the Association has now reached a membership of over one hundred organisations. Three years ago, when I was honoured by being appointed your President, the membership was, I believe, just a little over the "half century." To watch the Association grow from strength to strength has indeed afforded me great pleasure.

But it is not numbers alone which count. If our membership has increased so much during these few years, I am sure that our standards of play have increased even more so, despite our lowly ranking at Paris last year.

This season, you all know, the World Championships will be played in London, and I have every confidence that our men—and our women—will prove to the Table Tennis World that our position as shown last season was by no means in accordance with our general standards. With that little extra comfort of playing in our home conditions, I hope to see at least one, if not both, of the coveted Team Championships for the Swaythling Cup and the Marcel Corbillon Cup won by us. We will be faced with much sterner opposition than ever before, but our British courage and determination will, I hope, carry us through to victory at last.

I should like to pay tribute to all those members and friends who are so busily engaged preparing for the World Championships. A gigantic effort is required of every individual in the country, and in fairness to those who are sacrificing so much of their time in their efforts to make the occasion representative of British tradition, I sincerely hope that each one of you will give your utmost support.

In conclusion, may I wish every member the best of luck throughout the season, and those players who will be representing us at South Kensington, success.

H. OLDROYD, *President.*

CHAIRMAN'S REPORT.

(The following is the text of Mr. Corti Woodcock's Report from the chair, addressed to the Annual General Meeting of the Association, in London, on April 28th, 1934.)

LADIES AND GENTLEMEN,

Having in the course of the last two or three months delivered rather more than twenty impromptu speeches, it is something of a change—and a relief—to obey precedent by reading a prepared address.

The 1933-34 season has in many respects been a record one. A tremendous amount of work has been got through—has had to be, for year by year the administration of the E.T.T.A. becomes more and more arduous. I wonder sometimes if those pioneers of the early days of the P.P.A. and the T.T.A.—Carris, Payne, Bromfield, Williams, Pope and Montagu (and let us unstintingly acknowledge the value of their services)—I wonder if they ever foresaw the future as expressed by the magnitude of our task to-day. Some of us are certainly slaves to the game. My own average is something like 30 hours per week, month in, month out; and I know the treadmill figures of my colleagues, the Secretary and the Treasurer, are little, if any, behind mine. If I have a regret, it is that I am almost completely robbed of practice, and I sadly fear that I am no longer the player I was!

Without in any way stealing the Treasurer's thunder (and I have never ceased to congratulate myself that I was primarily responsible for Mr. Vent's election to that office), I can say that our financial position is now better, actually and potentially, than ever it has been before. The new broom has done some useful sweeping this season. We have not been mean, but we have been mighty careful. The Emergency Committee has looked twice at every sixpenny piece. Every item of rash or doubtful expenditure has been cut out without ceremony. We have tried to take advantage of the experience gained by past mistakes and errors of judgment. We have built anew for the present, and, we trust, for the future; and in the result we are able to present you with a financial statement which undoubtedly gives fair promise of prosperity in years to come.

The Secretary's Report will make it plain that our position as the greatest indoor sports organisation in the country has been appreciably strengthened this season. Within a little, our membership has doubled itself within the last two years and there is every indication that the E.T.A.A. will continue to make rapid progress for many a year; provided always that our administration is sound and our vision clear. In our boldness there's no need to show suicidal tendencies; in our shrewdness let us not be insular or narrow-minded. And, in controlling our affairs, let us at all costs avoid the twin evils of autocratic democracy and democratic autocracy. To-day, we total roughly 1,250 clubs and 30,000 players. Within very few years, I think it by no means unreasonable to anticipate our association comprising 10,000 clubs with an aggregate membership of a quarter of a million. We have only just started.

While on the subject of Association membership, I wish to say this: There seems to be a tendency in some quarters to refer to the Association—that is to us—as a body separate and distinct from the “masses,” by which I mean Leagues, Clubs and players. I would like to see that impression removed. Without the Association there is, I agree, no such thing as organised table tennis; but without Leagues and Clubs there is no such thing as our Association. The two are so complementary as to be one. If we (the executive “we”) are the body, then you are the arms and legs, and—I daresay—in many cases the brains also. I mention the matter in this way because I am anxious that even the smallest units of our entity, as it were, realise that they are automatically integral parts of the whole. May you, in your Leagues and Clubs, suffer (in a smaller way) the growing pains which now so seriously disturb the frame of the parent body.

Having dealt briefly with finance, membership and prospects in a general sense, I turn now to the major results and records of our play. We have never yet failed to enter a team for the World Championship meeting. This season our journey was to Paris. Two teams were sent, one men's, one women's. The performance of neither was brilliant. To finish 7th out of 12 was nothing to write home about, so we left it to be announced on the air from Radio Normandy.

It is only fair to say that the teams had been picked after a thorough-going (if necessarily rapid) series of trials; and that the Selection Committee, representing both the North and the South, was quite unanimous in its verdict. We were gravely handicapped in that our most experienced men were not free to travel this season. Our team, though chosen strictly on merit, was “green.” There was in it no man really of World class. Our attack had no spearhead, and my own duties as Captain were further complicated by reason of the fact that as far as ability and possibility went, our five were as alike as five peas. As a matter of statistical interest we were only just down on points, 3,192 for, 3,200 against. The teams fought well and pluckily, but, frankly, were out-classed. Probably the high-water mark of our Paris achievements was Miss Dora Emdin's defeat of the World's Woman Champion in the singles quarter-final.

In other International Matches we beat France at Dinard last August; this win being almost entirely due to the fine form of T. Sears. Sears later on captained England against Wales and the I.F.S. at Cardiff. These matches were won comfortably by 8—2 and 10—0, respectively. In the Welsh open Championships played at the same time, we provided all finalists for the singles and men's doubles. Hales won the men's, Miss Woodhead the women's; and Bergl—Hales and Millar—Hyde divided the doubles. In March the I.F.S. was beaten again in Dublin by 11—0, E. Hyde claiming their singles championship; and our women scored an easy victory over the Welsh women at Watford, 9—1. The match against India was lost, rather unexpectedly, by the wide margin of 7—3. Our team, though drawn entirely from the South, was quite a strong one, and certainly looked good enough on paper to prevent India recording her second successive win.

The English Championships gave general satisfaction as to conditions and venue and were a success financially. Bergl achieved the distinction of being the last Englishman left in. Barna's win makes it ten years since one of our own people secured the title of Champion of England. Miss Osborne worthily won the women's singles. The Association's grateful thanks are due to our good President, Mr. Oldroyd, and to

Councillor Nicholls, of Brighton, for so generously presenting us with two magnificent challenge trophies for the Championship singles.

Now, gentlemen, we are faced with a curious and disturbing position. Each year thousands of new recruits join our ranks. Each year the standard of club play everywhere reveals notable encouraging improvement. The moderate becomes good, the good, very good; but only up to a certain point. And that point is well short of World class. Judged on World Championship standards, England is now only a second-rank power. We are falling behind, and badly; and in addition to the big three, Hungary, Czecho-Slovakia and Austria, we now have the mortification of seeing Latvia, Poland and France ranking above us with no real hope of being able seriously to challenge them. As you know, the next World Championships are to be held in London, and I am sure you will be with me when I suggest that it is up to us to make a determined effort to recapture our waning prestige.

"How?" you may ask. Well, here are a dozen detailed criticisms by way of analysing our inferiority. There are exceptions, of course, but they apply in a general way to our players of International or near-International class.

1. Insufficient command of stroke-making technique. The ball in a certain place has only one kind of reply.
2. Insufficient enterprise. No initiative, resource or real constructive thought. Little tactical sense.
3. Clumsy foot-work. Not enough regard for requirements of physical fitness. Bad body balance, involving slow recovery. Poor anticipation.
4. Three speeds—chop, plain drive, and hit—are not enough. **Grading** of speed, through the air and off the table, must be mastered, both for attack and defence.
5. Too many service deliveries frittered away, outed or netted.
6. Too many high ball sitter "foozled." Numbers 5 and 6 quite inexcusable.
7. Ours is too much an "up-and-down" game. We must go for the sharp angles more boldly.

8. We cannot sustain a hard driving attack. Our men seem to be overcome by astonishment if three or four consecutive fast shots go on. Frightened and uncertain, fearful their "luck" can hold no longer, they try a drop-shot which as often as not lands meekly at the foot of the net.
9. Drop-shots played from the end line and "dead-bat" shots are practically unknown in this country.
10. After a stern uphill fight the reaction at 20-all is too much for our men. They must school themselves to carry the effort right on to 22 and beyond, if necessary.
11. The typical Hungarian star, losing say 15-20, will continue to play every ball on its merits. He will continue to go out for his winners. Our people poke like beginners in similar circumstances.
12. Paris has taught us the lesson that long defence alone is inadequate. We have got to cultivate a short defence as well, half or quarter volley, provided that the reply is kept low and well-angled; this to be used as an alternative defence to any except the very fiercest shots.

That brief analysis explains at least to a certain extent our lowly position in Swaythling Cup ranking. The comparative brainlessness of our so-called star players explains the remainder. Our best men have got to do something about it and soon; and if I were asked to give them a motto I would suggest: "Control, Concentration and Hard Work." The sooner our leading players cut out the piffling practice of friendly knock-ups, wearing day shoes and collars and ties, the better.

For some years it has been the custom for the Chairman of the Selection Committee to issue a personal, unofficial ranking list. Team-building is almost simple as compared with list-compiling, which, as you will have gathered from what I have already said, is unusually difficult this year. Results of tournaments and championships have been exceptionally and aggravatingly contradictory. The lists I am about to give you are by no means approved in their entirety by my esteemed—and very conscientious—colleagues of the Selection Committee; and they are released to you now and to the Press to-night as representing my personal opinion only.

Well, there are two nice "meaty" bones for you to worry. I offer just one or two comments on my own, apart from admitting that there is ample scope for contention and debate in these lists. First, to point to Birmingham's well-deserved honour in providing both No. 1's; second, to the coincidence of the proportion of South to North being 7 to 5 in each case; thirdly, my opinion that only the "old gang" as represented by No.'s 1, 2, 3 can be regarded as players of **genuine** class; and, lastly, my conviction that with a month's intensive practice Fred Perry would prove himself still to be the grand player he used to be—possibly our best even yet. Incidentally, I think I can fairly say that we have all taken, and do take, the greatest pleasure in his remarkable series of brilliant

successes on lawn tennis courts all over the world. We regard him as one of us. His interest in table tennis is still very much alive; and I should like to think that this meeting will instruct the Secretary to convey to Fred Perry our congratulations on his recent achievements, together with our best wishes for Wimbledon this year.

One particularly gratifying feature of the season's work is in respect of our contact with the Press. It is a great pleasure to be able to record that we have now practically disposed—once and for all—of the bogey of journalistic disparagement and contempt. Fleet Street is now definitely friendly, interested, and is even well on the way to full-blooded enthusiasm. As the Press has been a serious stumbling block to progress in the past, may it now prove a powerful, welcome ally in the future. Certain it is that table tennis has had a greater degree of Press support in the last few months—I am referring particularly to the great National Dailies and Weeklies—than ever before in all its history. Results, reports, news items, photographs, Tom Webster cartoons, interviews—they almost came to us cap in hand. And it cost us less than £2. In addition to widespread support in the Provincial Press, notably in Manchester, Liverpool, and Birmingham, Mr. Pope has contributed regularly to "Tennis Illustrated" and has had articles accepted on the Lyon's Sports Sheets. Both are very useful media indeed. For myself, I was fortunate enough to get an article published in a Journal with a circulation of over a quarter of a million, and, later, to take advantage of facilities offered us by the B.B.C. I am not without hope that next season I may be able to persuade the Broadcasting authorities to let me talk again for rather longer than the miserable three minutes allotted to us last February.

It is worthy of note that the game is now penetrating far into the—as yet—unaffiliated field. In cottage and mansion, schools, liners, hotels, boarding houses, clubs of all kinds, sports pavilions, factories, yes, even Royal Palaces, table tennis has largely replaced every other type of indoor sport. I have seen it played in the crypt of church before early service on a Sunday morning by candle light; the great stores of London and the Provinces now make a real

splash of table tennis equipment and pathetically beg us to provide them with players for exhibition purposes. No wonder! It's good business for them and certainly not bad business for us. Which brings me to the reflection that the day of professional table tennis cannot now be very far distant. Yet another significant development is that enterprising people like the Lucania Billiard Halls Ltd. have been busily engaged this season substituting table tennis tables for billiard tables. Their Halls are open for casual, public play; and it is interesting to know that in more than one instance the change-over from billiards to table tennis has instantly converted a loss into a profit.

In short we can claim that table tennis is at last right on the map. The Press is converted—the general public becomes more and more "table tennis minded." Only good can arise from the situation provided that we keep our wits about us. With regard to the public, I note that exhibitions have been more numerous than ever this season. This is certainly work of just the constructive kind we want, and I take this opportunity of drawing your special attention to the splendid efforts in this connection of Mr. Emdin, Mr. Rose and Mr. Pope. There are probably many others who have successfully undertaken the staging of exhibitions and, I feel that these, together with those unselfish men and women who referee or umpire, or officiate in any way at the multitude of tournaments and championships, command our deep appreciation and that of all players. At this point I would like to put in a word with regard to the very valuable services rendered by Mr. Rose in connection with the preliminary investigations and enquiries on behalf of the World's Championships Sub-Committee.

Before I resume my seat—and for all I know, I may not be its occupant much longer—I wish to refer in the warmest possible terms to the services of the Emergency Committee now going out of office. Elected at the special General Meeting last September, it has done extraordinarily well in circumstances of great difficulty. I have been proud of my team, proud to work with men who have given freely not only of their time but of their personal loyalty and co-operation. Our President, Mr. Oldroyd, is indeed a worthy

keystone upon which our house is built, and his concern for our interests is only rivalled by his unfailing diplomacy and charm. Mr. Vint I have already mentioned in terms of deep appreciation and gratitude; and I would add that our new Hon. General Secretary, Mr. John Siddron, has come through the acid test of his first season with flying-colours. Of the members of the Executive Committee I would refer particularly to Mr. Symons' fine work. I single him out because the recent cancellation of his appointment as the representative of the London League makes him ineligible, under the new Constitution, for further service. The new rule, so ill-advisedly insisted upon last September, now deprives us of a very good man; and this also strongly applies to Mr. Hyde, to Mr. McNeil, and both to Mr. Bunbury and to Mr. Poupard, whose work as Chairman and General Secretary, respectively, in 1931 and 1932 was attended by such eminently satisfactory results.

In conclusion, I own to having taken full advantage of my one and only opportunity of speaking my mind. After all, in the usual way, the really wise Chairman permits himself to say only that which is strictly necessary. I confess that I have enjoyed this rare chance of letting myself go a little. You have been kind enough to bear with me very patiently, and I thank you, ladies and gentlemen, for your indulgence.

Let our watchword now be: "On to next season!"

C. CORTI WOODCOCK, *Chairman*.

SECRETARY'S REPORT.

SEASON 1934-35.

On a dust-covered file of the Association I recently found a letter from one, J. Siddron, part of which read, "... I shall be greatly obliged if you will help me with a view to joining some Table Tennis League, ready for next season ... In order to develop our methods of play, I think you will agree that outside opposition is one of the most important factors required."

Little did I think that, five years after writing this letter, I would be answering hundreds of similar enquiries, and addressing the 30,000 registered players which the Association now controls. More did I think, I must admit, that I had hopes of representing England at the table, rather than at the desk! I found the "outside opposition" which I sought, but became far too interested in the organisation of the opposition itself to bother about my original intention to become a player; the result being that I am still a "rabbit" at the table.

On account of my interest in the progress of our game, I consider myself most fortunate to be able to take an official part in activities this season—the greatest ever. We may, I claim, regard this season as a jubilee year in the history of the Association for two reasons. One—the return to England of the World Championships eight years after the inauguration of the events, and the foundation of controlled table tennis throughout the world; and two—the passing of the 100 mark in the number of affiliated Leagues and Associations in this country.

At the time of the first World Championships, held in London in 1927, the Association boasted a membership of 12 Leagues. To-day our membership is 102, which figure is made up of 99 League Organisations and 3 Associations whose membership comprises Leagues. Comparative figures for the last four years are:

Season.	Leagues and Associations.	Clubs.
1931-32	38	675
1932-33	52	856
1933-34	71	1253
1934-35	102	1654

From these figures the great strides made by the game as an organised sport are readily apparent, and I would here pay tribute to the work of my predecessors, Messrs. Pope, Hookins, Poupard and Decker, who paved the way to the success we are now achieving. They are not alone in my thoughts of appreciation, for in the History of the Association printed elsewhere, there are many other great names which will long be remembered.

The reason for our success is primarily, we all know, due to the game's popularity as a game. But apart from this, there is a definite trend in the outlying and smaller districts to wish to take a part in the game's organisation as an international sport. A few years ago, only the larger towns, with just one of two exceptions, seemed anxious to advance the nation's standing as the largest organisation in the world. To-day, I am pleased to say, almost the whole country is represented by our membership. The feeling of the smaller towns that they are too weak or too far away to take a part in the national organisation is slowly but surely being overcome.

Another pleasing feature to-day is the increasing number of Open Championships and Tournaments which are being held in most parts of the country. During the course of each season the Selection Committee has the thankless task of nominating teams to represent England against France, India, the Irish Free State, Wales, and occasionally other countries.

Our teams to play for the Swaythling Cup and the Marcel Corbillion Cup have also to be selected, and no better training-grounds can be found for our future international players, than the Open Tournaments which are now held almost weekly throughout the season.

In conclusion, may I sincerely thank all those who have co-operated with me so whole-heartedly in the past. Matters do not always run so smoothly as one would wish, but I assure each one of you that whatever regrets I may have are far and away outnumbered by the very happy memories of our work together.

Yours very truly,
JOHN SIDDRON,
Hon. General Secretary.

TREASURER'S REPORT.

SEASON 1933-34.

The Income and Expenditure Account for the year ended 30th June, 1934, published on another page of the Handbook, shows a surplus on the year's working of £80 13s. 7½d., which is extremely satisfactory, especially having regard to the additional commitments entered into by the Association. Members will be gratified to know that the effect of the surplus is to place the Association on a solvent basis.

As an indication of the growth of the Association, the affiliation fees received from the Leagues, Clubs, etc., during the past four years are shown in the following statement:

Season.	Total Receipts from Affiliation Fees.
1930-31	£86
1931-32	£142
1932-33	£169
1933-34	£233

It is interesting to record that the financial result of the English Open Championships produced a surplus of £38. This event as a rule has been run at a loss, but the Committee feel that if these events are organised on a sufficiently attractive scale there is no reason why they should not be self-supporting, which is more than borne out by the position during the past season.

Although no official appeal has been issued by the Executive for donations to the Fighting Fund, the work of the Association is still growing, and to cope with the general flow of enthusiasm it is necessary to expand our activities, which of course involves extra expense. I would ask every League, Club, and Player to make some contribution to this fund, and so materially assist in the general advancement of Table Tennis.

A. K. VINT,
Hon. Treasurer.

THE LAWS OF TABLE TENNIS.

(As adopted by the International Table Tennis Federation).

Singles.

1. The Table.—The table shall be in surface rectangular, 9ft. in length, 5ft. in width; it shall be supported in such a way that its upper surface shall be 2ft. 6ins. above the floor, and shall lie in a horizontal plane.

It shall be made of solid hard 1in. wood or shall yield a uniform bounce of not less than 8ins. and not more than 9ins. when a standard ball is dropped from a height of 12ins. above its surface.

The upper surface of the table shall be termed the "playing surface"; it shall be non-reflecting, of a dark colour with a white line ½in. broad along each edge.

The lines at the 5ft. edges or ends of the playing surface shall be termed "end lines." The lines at the 9ft. edges or sides of the playing surface shall be termed "side lines."

2. The Net and its Supports.—The playing surface shall be divided into two courts of equal size by a net running parallel to the end lines and 4ft. 6ins. from each. The net shall be 6ft. in length; its upper part along its whole length shall be 6½ins. above the playing surface; its lower part along the whole length shall be close to the playing surface. The net shall be attached at each end to an upright post 6½ins. high; the outside limits of each post shall be 6ins. outside the side line on the same side.

3. The Ball.—The ball shall be spherical. It shall be made of celluloid, pale in colour; it shall not be less than 4½ins. nor more than 4¾ins. in circumference; it shall not be less than 37 grains (2.40 grammes) nor more than 39 grains (2.53 grammes) in weight.

4. The Racket.—The racket may be any material, size, shape, or weight.

5. The Scoring of Points.—A game shall be won by the player who first wins 21 points, unless both players

shall have scored 20 points, when the winner of the game shall be he who first wins two points more than his opponent.

6. The Choice of Ends and Service.—The choice of ends and the right to be server or striker-out in every game shall be decided by toss, provided that, if the winner of the toss choose the right to be server or striker-out, the other player shall have the choice of ends, and vice versa, and provided that the winner of the toss may, if he prefer it, require the other player to make the first choice.

7. The Change of Ends and Service.—After five points the striker-out shall become the server, and the server the striker-out, and so on after each five points until the end of the game or the score 20 all. At the score 20 all the striker-out shall become the server, and the server the striker-out, and so on after each point until the end of the game. The player who served first in a game shall be striker-out first in the immediately subsequent game, and so on until the end of a match.

The player who started at one end in a game shall start at the other in the immediately subsequent game, and so on until the end of the match. Where the match consists of only one game, or, where it consists of more than one game, in the deciding game of the match, the players shall change ends at the score 10.

8. Out of Order of Ends or Service.—If a player serve out of his turn, the player who ought to have served shall serve as soon as the mistake is discovered, unless a group of five services shall have been completed before such discovery, when the service in the subsequent groups of services shall continue, in the same order, as if the sequence had not been discontinued. In any circumstances, all points scored before the discovery shall be reckoned.

If the players shall not have changed ends when ends should have been changed, the players shall change ends as soon as the mistake is discovered, unless a game shall have been completed since the error, when the error shall be ignored. In any circumstances, all points scored before the discovery shall be reckoned.

9. The Order of Play.—The server shall first make a good service, the striker-out shall then make a good return and thereafter server and striker-out shall each alternately make a good return.

10. A Good Service.—The service shall be delivered by the server projecting or dropping the ball by hand only, without deliberate deformation of the surface, into the air. The ball shall then be struck so that it touch first the server's court and then, passing directly over or round the net, touch the striker-out's court.

At the moment of the impact of the racket on the ball in service, both shall be behind the end line of the server's court and between an imaginary continuation of the side lines.

11. A Good Return.—A ball having been served or returned in play shall be struck by the player so that it pass directly over the net or round the net and touch directly the opponent's court; provided that, if the ball, having been served or returned in play, returns with its own impetus over the net or round the net, it may be struck, while still in play, by the player so that it touch directly the opponent's court.

12. A Let.—The rest is a let:

(a) If the ball served in passing over the net touch it or its supports, provided the service either be otherwise good or be volleyed by the striker-out.

(b) If a service be delivered when the striker-out is not ready, provided, always, that he may not be deemed to be unready if he attempts to strike at the ball.

(c) If either player be prevented by an accident, not under his control, from serving a good service or making a good return.

(d) If either player lose the point, as provided in Law 13 (c), (d), (e), or Law 14, owing to an accident not within his control.

13. A Point.—Either player shall lose a point:

(a) If he fail to make a good service except as provided in Law 12.

(b) If a good service or a good return having been made by his opponent, he fail to make a good return, except as provided in Law 12.

(c) If he, or his racket, or anything that he wears or carries, touch the net or its supports while the ball is in play.

(d) If he, or his racket, or anything that he wears or carries, move the playing surface while the ball is in play.

(e) If his free hand touch the playing surface while the ball is in play.

14. A Point.—Either player shall lose the point:

(a) If before the ball in play shall have passed over the end lines or side lines not yet having touched the playing surface on his side of the table since being struck by his opponent, it come in contact with him or anything that he wears or carries.

(b) If at any time he volley the ball, except as provided in Law 12 (a).

15. In Play.—The ball is in play from the moment at which it is projected or dropped from the hand in service until:

(a) It has touched one court twice consecutively.

(b) It has, except in service, touched each court alternately without having been struck by the racket intermediately.

(c) It has been struck by either player more than once consecutively.

(d) It has touched either player or anything that he wears or carries, except his racket or his racket hand below the wrist.

(e) On the volley it come in contact with the racket or the racket hand below the wrist.

(f) It has touched any object other than the net supports or those referred to above.

16. Further Definitions.—The period during which the ball is in play shall be termed a rest.

A rest the result of which is scored shall be termed a point.

A rest the result of which is not scored shall be termed a let.

The player who first strikes the ball during a rest shall be termed the server.

The player who next strikes the ball during a rest shall be termed the striker-out.

If the ball, in passing over the net, or round the net, touch it or its supports, it shall, nevertheless, be considered to have passed directly, except as referred to in Law 12 (a).

If the ball in play come in contact with the racket or racket hand, not yet having touched the playing surface on one side of the net since last being struck on the other side, it shall be said to have been volleyed.

The racket hand is the hand carrying the racket; the free open hand is the hand not carrying the racket.

Doubles.

17.—The above laws shall apply in the Doubles Game except as below.

18. The Table.—The surface of the table shall be divided into two parts by a white line $\frac{1}{2}$ in. broad, running parallel with the side lines and distant from each of them 2ft. 5in. This line shall be termed the service-line. The part of the table surface on the nearer side of the net and the right of the service-line in respect to the server, shall be called the server's right half court, that on the left in respect to him the server's left half-court. The part of the table surface on the farther side of the net, and the left of the service-line in respect to the server, shall be called the striker-out's right half-court, that on the right in respect to the server the striker-out's left half court.

19. A Good Service.—The service shall be delivered as otherwise provided in Law 10, and so that it touch first the server's right half court or the centre line on his side of the net, and then, passing directly over or round the net, touch the striker-out's right half court or the centre line on his side of the net.

20. The Choice of Order of Play.—The pair who have the right to serve the first five services in any game shall decide which partner shall do so, and the opposing pair shall then decide similarly which shall first be striker-out.

21. The Order of Service.—The first five services shall be delivered by the selected partner of the pair who have the right to do so, and shall be received by the selected partner of the opposing pair. The second five services shall be delivered by the striker-out of the first five services and received by the partner of the server of the first five services. The third five services shall be delivered by the partner of the server of the first five services and received by the partner of the striker-out of the first five services. The fourth five services shall be delivered by the partner of the striker-out of the first five services and received by the server of the first five services. The fifth five services shall be delivered as the first five services. And so on, in sequence, until the end of the game or the score 20 all, when the sequence of serving and striking-out shall be uninterrupted, but each player shall serve only one service in turn until the end of the game.

In a one game match, or the deciding game of the match of more than one game, the pair that served the first five services has the right to alter their order of striking out or that of their opponents at the score 10.

22.—Out of Order of Striking-out.—If a player act as striker-out out of his turn, the player who ought to have acted as striker-out shall be striker-out as soon as the mistake is discovered, unless a group of five services shall have been completed before such discovery, when the order of striking-out shall continue in the subsequent groups of services as if the sequence had not been discontinuous. In any circumstances, all points scored before the discovery shall be reckoned.

23. The Order of Play.—The server shall first make a good service, the striker-out shall then make a good return, the partner of the server shall then make a good return, the partner of the striker-out shall then make a good return,

the server shall then make a good return, and thereafter each player alternately in that sequence shall make a good return.

APPENDIX TO LAWS.

KNOTTY POINTS.

Decisions of the Rules Committee of the International Table Tennis Federation.

1. Edge Balls.—The phrase, "Table Surface" is to be interpreted as including the top edges and corners of the table-top, and a ball in play which strikes these latter is therefore good and still in play; though if it strikes evidently the side of the table-top below the edge, it becomes dead and counts against the last striker.

2. Ball Returned with Empty Hand.—If a player drop his racket, he cannot return the ball with empty hand. (See definition, "the racket hand is the hand carrying the racket.")

3. Racket Thrown at Ball.—If in returning the ball the racket leave the player's hand, it is a good return only if it were still in his hand at the moment of contact with the ball (see Law 11, "a ball . . . shall be struck"), and if it do not touch the net or move the table surface (Law 13 c, d) before the ball is out of play.

4. Finger-spin in Service.—

(a) Finger-spin *may* be imparted to the ball in service by projecting it by hand into the air and then striking it (Law 10); it *may not* be imparted by holding the ball and rubbing the racket surface against it before it leaves the hand (Law 10, and double-hit, Law 15 c).

(b) No artificial aid must be worn on the fingers to increase finger-spin; a rubber thumb-stall or finger-stall violates Law 10 "projecting or dropping the ball by hand only," since more than the hand is used. (The umpire should however, of course use discretion respecting a merely technical violation caused by a stall or glove worn through injury, and not employed to increase service-spin).

(c) Distinction should be made between that measure of deformation physically inseparable from striking or pressing a resilient object, and a deliberate deformation executed to

alter the shape of the surface to secure improved grip. The latter may invariably be distinguished by a sharp click of celluloid, audible as the surface resumes convexity on leaving the hand, and in no way resembling the finger snap sound of legitimate finger spin.

5. Missed Service.—If a player in attempting to serve miss the ball altogether, it is a lost point (Laws 10 and 15) because the ball was in play from the moment it left the server's hand, and a good service has not been made of the ball already in play.

6. Volleyed Net Service.—A net service is a let not only if otherwise good but also if it be volleyed by the striker-out. (See Laws 12 (a) and 14 (b).)

7. Ball Fractured in Play.—If the ball split or become otherwise fractured in play, *affecting a player's return*, the rest is a let (Law 12 c). It is the umpire's duty to stop play, recording a let, when he has reason to believe that the ball in play is fractured or imperfect; and to decide those cases in which the faulty ball is clearly fractured in actually going out of play, and in no way handicaps the player's return, when the point should be scored. In all cases of doubt, however, he should declare a let.

8. Fixtures.—A moving spectator, a neighbouring player, a sudden noise, i.e., any neighbouring object *in movement* (except a partner) should be regarded as an accident not under control (Law 12 c), interference from which implies a let. A stationary spectator, fixed seating, the umpire, the light, a nearby table, a continuous sound of even volume, i.e., any *relatively constant or motionless* hazard, should not be so regarded, and complaint against interference from it during play should be regarded as void.
