HISTORY.

Following upon the great popularity of the original Ping-Pong in the early part of the present century, the Ping-Pong Association was formed in 1902, to organise championships and tournaments, chiefly in London. The "boom" year was 1904 but it was only a temporary craze, as, although the P.P.A. was still in existence in 1905, it appears to have collapsed during that season. Whilst the game seems to have died out in the home counties, it was apparently still being played in the provinces but without any governing body.

In 1921-22, the P.P.A. was resuscitated by Messrs. P. Bromfield and J. J. Payne, who were joined by Hon. Ivor Montagu and Mr. A. F. Carris. The National Championships were run that season, and entries received from all parts of the country. Difficulties soon arose, however, not only in regard to the title, when it was discovered that Ping-Pong was a registered trade name, but also through the Association being unrepresentative of the provincial centres. The old Ping-Pong Association therefore dissolved and re-formed under the title of "The Table Tennis Association." The new body was hampered by difficulties, and as their energies were devoted to formulating standard rules, popularising the game, etc., no attempt to form a democratic governing body could be made.

At the Annual Meeting in 1925, an emergency committee, with Mr. Montagu as President, and Mr. W. J. Pope as Secretary, were authorised to redraft the constitution. In 1926, revised regulations were circularised in the provinces and a National Delegate Conference was held in London, on April 24th, 1927. The new constitution, which confirmed the provisional appointments, and provided for the new title, "The English Table Tennis Association," was adopted.

The first Chairman and Secretary were, of course, Mr. Montagu and Mr. Pope, respectively. They stayed in office for some years, and were together primarily responsible for establishing the new national body on sound foundations. They worked prodigiously hard until Mr. H. M. Bunbury, of Manchester, assumed the Chairmanship in 1929, Mr. Montagu being appointed President. Mr. D. W. Poupard became Secretary one year later, after Mr. B. J. Hookins, of Pontefract, had had a brief term. Mr. H. Oldroyd, also of

Manchester, was elected President in 1931, and still retains very worthily the dignity of his office. Mr. Montagu returned to the chair in 1932, with Mr. G. W. Decker as Secretary; these two being succeeded in September, 1933, by Mr. C. Corti Woodcock, of London, and Mr. J. Siddron, of Manchester, respectively. The last-mentioned appointments were renewed in April, 1934, together with that of Mr. A. K. Vint, of Hastings, Hon Treasurer since 1931. In April, 1935, Mr. Woodcock and Mr. Vint were re-elected and Mr. W. J. Pope displaced Mr. J. Siddron as Secretary. Interesting names appearing on the list of twenty-five Vice-Presidents include Messrs. Bunbury, Bromfield, Perry (father of our ex-world champion, Fred J. Perry), Swann, of Manchester and Sir Leonard Lyle, Bt. (one-time Chairman of the L.T.A.). In the last groups recently elected, were further valuable additions in the persons of the Dowager Lady Swaythling, Mr. A. F. Carris, Mr. P. E. Warden, and Mr. A. Donaldson, one of the pioneers of the game in the North of England.

The progress of the E.T.T.A. dating from the inaugural congress has been very rapid as the following figures reveal: 1927-28, 19 Leagues; 1928-29, 21; 1929-30, 23; 1930-31, 32; 1931-32, 38; 1932-33, 52; 1933-34, 71. In the season 1934-35, we jumped to 99 Leagues, 1,654 Clubs, and approximately 30,000 individual registered members, and as this Handbook is being prepared it seems certain that a further record jump will be made in 1935-36. Of the 22 National Table Tennis Associations comprising the International Federation, ours is by far the largest, as indeed it is also the biggest of all indoor sports organisations in this country at the present time. The game is now part and parcel of the life, interest and exercise of English men and women of all ages.

Last season, after an interval of eight years, the World Championships Congress returned to England. The E.T.T.A. was faced not only with a gigantic task, but with a vital responsibility to the visiting foreigners, the players and the public. The result is now history, and the great crowds which thronged the London University and Imperial Institute and the huge assembly of over 8,000 people which packed the Empire Pool & Sports Arena, Wembley, proved that the game has won its place in public favour as a thrilling spectacle.

A NEW IDEA IN TENNIS TABLES

The "HOUGHTON" FOLDING TENNIS TABLE is the ideal table for the Club, Sports Pavilion, Hotel, Dining or Dance Room, Boarding House, Sports Gymnasium, the Garden, etc., as it can be put up in a moment, and when not required can be folded to as small a size as 9 ins. wide. The Table is of handsome appearance and can be put to many uses. It is a piece of first-class hand joinery, perfectly finished in every detail.

What Mr. Donald Foulis (the famous English International) thinks :

Dear Sirs,

I have tried your New "Houghton" Tennis Table, and I am convinced that it is the best light folding table I have ever seen. Folding so compactly, and requiring so little storage space, it would be admirable for hotels, boarding houses, club pavilions, etc., where tables have to be erected and taken down as occasion demands. I noticed that it could be easily handled by one person.

Yours sincerely,
DONALD FOULIS.

THE NEW "HOUGHTON" FOLDING TENNIS TABLE

THE NEW "HOUGHTON" FOLDING TENNIS TABLE

(Recommended by Mr. DON. FOULIS, Famous English International).

The top is made of hard plywood 9 mm. thickness, supported on six stout legs, 1 1/4 ins. thickness, which fold completely like a book, all adjustments of screws and bolts being obviated. In position it stands firm and steady, but it is so compact that it can be easily erected or folded by one person.

THE PRESIDENT'S REPORT.

SEASON 1935-36.

We have now come to the end of another very successful season. Our game has been more popular than ever and the interest taken by the public has been very marked. The increase in the number of clubs and leagues is as you will hear later, very great. The season has been very outstanding by reason of the World Championships in England. From playing and publicity point of view it was a great success, especially the wonderful finals at Wembley. We are, however, faced with a heavy financial loss and which has now to be dealt with. Our English teams and players did well, but I am afraid there is little sign of capturing the major prizes of the game. The system of training promising players leaves much to be desired. Young players are moved into public too early. This matter should be left to the earnest consideration of the new committee. The English Championships at Manchester went off well, but the event suffered by the aftermath of the World's. The year has been marked by great endeavours and hard work by all the officials; our game does not lack willing helpers. It has been a pleasure and a great honour to have been the figure-head of this great Association, and as such I express keen appreciation of the efforts all have expended during the year. I should like to pay a tribute to Fred Perry for his tennis triumphs. I think it should be suitably recognised by the Association. We all hope that he may still be able to find time to associate himself with our game. Professionalism is to be dealt with in a broad manner and that it will be for the good of the game and the players.

Again I wish to thank you for the high honour you have conferred upon me the last four years.

H. OLDROYD, *President.*

THE CHAIRMAN'S REPORT.

(The following is the text of Mr. Corti Woodcock's Report from the Chair, addressed to the Annual General Meeting of the Association, in London, on April 27th, 1935.)

LADIES AND GENTLEMEN,

Last year I was able to announce that the Association membership had practically doubled itself in two years. To-day I am in a similarly happy position for we have now topped the century in League affiliations with a total of roughly 40,000 players. Club strength stands at nearly 1,800. This satisfactory growth has come about of its own accord, and can be credited partly to labours in past years and partly to the impetus bestowed by recent events. To put it in another way, practically no creative work has been done this season and I shall hope to deal with the reason—and the cure—for this, a little later on.

Many of you are old enough to remember the pioneer era of Table Tennis and can recall how it slowly, but very surely, emerged from its ping-pong chrysalis. That's not really a good metaphor, for Table Tennis, as we view it to-day, is anything but a fragile butterfly. The word "eagle" springs more readily to mind—truly a king in the realm of sport. But I refer now to the old days of Table Tennis because it seems to me that some of its most enthusiastic and industrious mentors could hardly have visualised the course of recent events. Even until a year or so ago there could have been doubts as to the future of organised Table Tennis. Those doubts, I dare to say, have now been completely, uncompromisingly pushed into oblivion. At last we know, definitely, that Table Tennis is an established world-sport. Its foundation is firm as a rock; and the only problem now remaining is for the executive side to keep pace with the game's astonishing progress, not only here, but abroad.

That leads me to the subject of the World Championships. As Mr. Pope is down on to-day's programme to give you an idea of the vast organisation he handled and Mr. Vint is scheduled to detail the financial outcome, I will confine my own brief comments to different territory. The first does at least partly encroach on Mr. Pope's preserves, because I wish

to take this opportunity of expressing, on your behalf, our great indebtedness to that slaving band of sub-committees, headed by the tireless Mr. Pope himself. Ladies and gentlemen, I can think of no other man, living or dead (unless it be Napoleon!) who would—or could—have done a fragment of what he did. From beginning to end the man never spared himself. "Bill" Pope was not only head cook and bottle washer, he was typist, messenger, orator, press agent, telephonist, and everything else all rolled into one. I have no hesitation in saying that his campaign was splendidly conceived and brilliantly executed. He was the one indispensable unit in the amazing bit of machinery he built up, and how he escaped a threatened nervous breakdown, I simply don't know. If he was lucky, we were luckier. In short, Mr. Pope rendered us—rendered the game—magnificent service. I only wish I had words enough to offer him really worthy tribute, but would ask him, in extenuation, to remember that his great achievement will remain in our grateful memory for many a long day. . . . It is clearly beyond me to read you a sort of "honours list" of his chief lieutenants, yet there are two or three who must be mentioned. Mr. Rose appeared on the official programme as "Referee"; but he was far more than that. For a whole year Maurice Rose worked for us at very high pressure indeed. It was he who scoured London in search of a suitable venue, he who ultimately "found" the Imperial Institute, he who formulated the all-important information relating to constructional costs, and who kept an ever-watchful eye on the work of the Equipment Committee. A score of tasks fell to Mr. Rose and he undertook them all valiantly, without regard for time, either night or day, or cost, or health. We stand profoundly in his debt; as we do also in Mr. Montagu's, whose two main responsibilities were shouldered with characteristic efficiency. To him was left, in the main, the complexity of the Swaythling Cup trials, together with the preparation and analysis of the mass of data arising from them. You need no assurance from me, I think, that it was splendidly done. Then he was appointed once more as our non-playing Captain, and there is no doubt that his unique experience and sound judgment secured for our teams the very best possible results. Few people can make more of available material than Mr. Montagu and it was certainly no

fault of his (and I do not forget his wisdom in laying down a physical training schedule) that our boys and girls just failed to achieve really high honours during the Championships. Of other leading workers, I would just like to refer with deep appreciation to Messrs. Wilmott—who wrestled with the perpetual ball-testing conundrum for months on end, and solved it—Elvin (hospitality), Hill (umpires), Vint (treasurer), Poupard (box-office), Page (publicity), Woodhead, Hewitt, Honeyball and Inwood (equipment), Decker (lighting), Davies (programme), Fox (prizes), and Mrs. Poupard, Miss Stevens and Mr. & Mrs. Milligan. There are, literally, hundreds of other people, too, who in one way or another were most generous in their support, either on the spot or who helped to organise Wembley parties from the Provinces—such as Messrs. Tarrant, Mannooch, Ross, Warden, Forrest, Goldstein, Emdin and Killner. Yes, it was a tip-top team, which is surely entitled to the proud and happy reflection that the tale of its collective labours has written a new and glowing page in the annals of Table Tennis.

It would be impossible to speak of the Championships without saying a word about the Press. Let me say at once that they exceeded our highest hopes. They gave us veritable slabs of space right and left; anything we wanted published—in it went, and out it came—if I may so contradict myself. The great dailies, the evenings, the weeklies, the illustrateds—every paper of importance assisted us in a way that must have seemed to some rather like a series of miracles. It looked for all the world as if they had put their heads together and said "We haven't been exactly helpful to this game in the past; come on, boys, let's make up for it and give it a real good show." Whatever the reason, they did give us a downright good show, and I would like our very welcome new friends, our freshly-converted journalistic allies, to know how we value their magnificent co-operation. They won't find us wanting in reciprocity, either, whenever we can give it.

The eve of the Championship Reception and Dance at the Royal Hotel was a great success, thanks largely to Mr. Elvin (our Mr. Elvin), Mr. & Mrs. Milligan, and the press department of Wembley. The Wembley Mr. Elvin was invariably most considerate and helpful in the course of our protracted

negotiations with his Company, and I think it safe to say that the arrangements made for the playing of the Finals in that wonderful arena of his were perfect in every way. To me, anyhow, the sight and sound of that crowd of nearly 8,000 was a thrill I shall never forget; and what is more, I don't think they will, either.

Just one word more about the Championships, a statistical word. Competitors travelled altogether some 200,000 miles. A staggering figure that: and even at the recent American National Championships at Chicago three weeks ago, I am told that the best part of 50,000 miles were covered by entrants. Think of it—two events—a quarter of a million miles. Such is modern Table Tennis.

To return to domestic matters, the Association has had a season of intense activity. A record number of open tournaments have been authorised, conditions—and standard—of play has reached a satisfactorily high level and the honours appear to have gone round pretty well. Internationally our showing is very fair. Bergl and Hyde undertook a very successful tour in November through Germany. They also played in Holland; and won every match. A fortnight later a rather depleted team just failed to retain the Dinard Cup against France at Bruay, by the odd match in nine after a great fight lasting four and a half hours; and Haydon and Bergl visiting Czecho-Slovakia last month lost both to Czecho and to France in a triangular tournament largely on account of having far too heavy a programme imposed on them. Our match against Wales in Cardiff unexpectedly set us back to the tune of 6-3; our first loss to our neighbours since 1927. Here again we were handicapped by the unavoidable absence of our leading players, although all had been selected. The I.F.S. were once again visited and comfortably disposed of and a fortnight ago our girls earned us a handsome revenge by beating the Welsh ladies 9-0. Nothing has been done this season in regard to the two-year old fixture versus India. Time has been too precious for one thing and for another, there is a feeling gaining ground in certain quarters, I fancy, that during the last ten years, this Association has done more than enough as a sort of foster-parent to the Indians, and that our friends should now really begin to set their house in order as a properly-organised entity.

The Swaythling Cup trials this season were even more exhaustive than those of last season. The teams selected were the best, undoubtedly, though I do not shrink from admitting that certain decisions were reached only with the greatest difficulty. I may say I have never come across a more strictly impartial or confoundingly conscientious Selection Committee. And here I desire to say how much we welcomed expert feminine support, by co-option, in respect of the Women's Corbillon Cup Team. Miss Stevens and Mrs. Poupard were most helpful, and I should also like to pay high tribute to the organising side of the trials' arrangements—Messrs. Montagu, Swann and Symons for the men, and Mrs. Bunbury, Miss Anderton and Miss Wood for the girls. I am bound to add that, in my opinion, the meticulous weeding out of the Trials process during the last two seasons has achieved its object. The evidence it produces is entirely out of proportion to the time, labour, travelling and expense incurred. And it tells us nothing new. I consider that the Selectors now have a perspective of national form adequate for their task and I am positively opposed to further Trials on the wide-spread plan as hitherto employed.

This season, as you know, your Executive Committee tried very hard to launch a new Table Tennis publication and, in putting forward its proposals, made it plain that for the paper it had in mind, a minimum circulation of 5,000 was obligatory. The circular stated bluntly "No support, no Journal." Well, even reminder postcards had no effect; and it may surprise you to hear that even including "promises," the total number of copies ordered fell short of 1,500. Roughly, only one player in twenty is sufficiently interested in Table Tennis to spend a few shillings a year on a periodical specially produced for his benefit. And we had only asked for one in six, modest enough in all conscience. You can imagine our disappointment, for as time goes on, I am certain that a bright, informative, well-written periodical is going to prove an important factor in keeping our rapidly-extending family knit amicably together. Moreover, properly edited, it should be—and would be—mighty interesting and useful. The game *deserves* to have an official record: which reminds me it is surely high time that Mr. Montagu's long-promised Treatise saw the light of day. The apathy to which I have referred was also strongly in evidence in regard to the Handbook. The publication date of this excellent book was fantastically late, to the wholly justifiable annoyance, not only of Tournament Secretaries, but of our advertisers as well. I am not going to say that the Executive was altogether blameless, but I do say that the real villains of the piece were a number of extraordinarily slow-moving Leagues. Well, we shan't soften our hearts next time or allow the majority to suffer for the defections of the slack minority. As Mr. Hore-Belisha says "You have been warned!"

In a way, it was a pity that no official Tour could be undertaken this year and my sympathy is completely with a number of Leagues who had enterprisingly made application

"at the early doors," so to speak. Well, for one thing, we obviously had to protect the interests of the World's Championship. It would have been crazy to encourage any kind of counter-attraction elsewhere, just before or just after; and another factor, not unimportant, is that I'm blessed if I know who could have been found to take on the particularly intricate organising of a tour, the fitting in of the itinerary, and so forth. It's not nearly so easy as it seems, and, as you may have gathered, for weary months on end, we dared to think of nothing else but the Imperial Institute and Wembley. It is true that a tour *was* made after the Championships, but that was simply due to the generosity of a private philanthropist, who proceeded to lose the best part of £100 for his pains. Meanwhile, I assure the good Leagues of Brighton, and Plymouth, and Bath, and Bury St. Edmunds, and many others, that our intentions are as good as our memory is long and that we'll do the very best we can for you all next season.

Some of you may know that at the instigation of the Football Association, the various sports bodies of Great Britain have recently been called together in conference with a view to assisting King George's Silver Jubilee Trust Fund, sponsored by H.R.H. The Prince of Wales. The fund has as its aim the improvement of amenities for indoor and outdoor sport on the part of the youth of England. I consider it my duty—and a pleasure—to report to you that the E.T.T.A. was invited to attend the inaugural meeting (with Lord Cromer, the Lord Chamberlain, in the Chair) and that I have since been deputed to serve, on your behalf, on the executive of this powerful new body, The British Sports and Games Association. If, as is probable, you are circularised a little later on, I feel confident I can look to you all to render individual and collective support to this splendid cause in any way you can.

One of the most important items on to-day's agenda is that relating to the "Professional" question: and I am obviously precluded from saying much about it at this moment. But I am going to indulge myself so far as to express the anxious hope that the course we choose will leave neither players nor public in any sort of doubt as to our attitude. Let us, for Heaven's sake, call a spade a spade up to the very limit of

I.T.T.F. interpretation. At least one other sport—not necessarily its English administration—still cheapens and ridicules itself by a constant display of stark hypocrisy and humbug. It's either that or rank narrow-mindedness. The trouble is they forget—or deliberately ignore—the human element. They seem to imagine that directly a non-paid player becomes a paid player, in some mysterious way all virtue leaves him and that he ought at once to be regarded as an outcast. And I say it's rot and bunkum: and I say, further, that I for one will do all in my power to help, not to hinder, those of our own good sportsmen who decide to turn their skill to personal account—skill, I would add, which has been of essential value in the development of Table Tennis as a sport of international recognition and standing.

Before they officially go out of office, I wish to pay the warmest possible tribute to all those with whom I have been privileged to work during this exciting, back-breaking season. The Executive, splendid fellows all, have met no less than seven times, the General Council once; the World Championship Executive and Sub-committees?—well, one simply lost count. But however harassed I have been, it has always been a comfort to be able to turn to our good President, Mr. Oldroyd, whose sagacity, charm and kindness is so appreciated by us all: and to Mr. Treasurer Vint, who is not only as ruthlessly efficient, but as sturdy, rocklike and dependable as the Bank of England itself. Secretariats, though, I am not so happy: and though I would not willingly engender embarrassment in Mr. Siddron (whose duties, believe me, are extremely onerous), he must by now be fully aware of my conviction that it is no longer possible for the Secretary to be in one place and the Chairman in another.

I propose very briefly to give my idea of the more important tasks and responsibilities confronting us next season. First, it is essential that the Association maintains a far closer contact with its Leagues, especially by means of correspondence and the promptness of it. Incidentally, our ramifications are now such that I think we shall very shortly have to consider the principle of the establishment of County organisations, working under and with us. . . . Dates of tournaments and championships must be more carefully

co-related. Overlapping must at all cost be avoided, and fixtures in the earlier part of the season must be encouraged.

. . . . We must do what we can to encourage a still more aggressive spirit on the part of our leading players—the women are improving more than the men, by the way, in this respect. Personally, I dislike the “pushing” style intensely, if only because it is unspectacular and unattractive from the public point of view. We must continue to try and beat the Hungarians at their own brilliant all-round game. . . . We must provide for a tour, covering as much ground as possible, of world-class players. . . . We must try yet again to establish a Table Tennis Journal. . . . The 1935-6 Handbook must be out by November 1st if possible, and December 1st at the very latest. . . . We must take steps to encourage Table Tennis in the Public and Secondary Schools, in the hope that at the end of the season a Schools' Championship may be possible. The schoolboy of to-day is, after all, the potential international of to-morrow. . . . We must see whether we can get the authorities to agree to an Oxford v. Cambridge fixture and whether half-blues can be awarded: and also whether there is any possibility of Table Tennis being included in the Olympic Games programme of 1940. . . . A careful and sympathetic watch must be kept on the development of the “professional” situation. . . . There is scope for improvement in phraseology, etc. of our constitution. . . . We must do our utmost to send the strongest possible teams to play in next year's World Championships in Zagreb—with an eye on Chicago for 1937. . . . The question of establishing an Association Headquarters Office in London must be carefully, if not urgently, examined. . . . And finally, no stone must be left unturned to ensure that we not only make both ends meet satisfactorily, but that a position of real financial strength is built up.

In conclusion, if I have said too much of some things, too little, perhaps, of others, Ladies and Gentlemen, I can only plead the difficulty of dealing in a short span of twenty minutes or so, with the events and reflections of a season, which, I think, we all regard as the highest pinnacle yet attained in the romantic history of Table Tennis.

THE LAWS OF TABLE TENNIS.

(As adopted by the International Table Tennis Federation.)

Singles.

1. The Table.—The table shall be in surface rectangular, 9ft. in length, 5ft. in width; it shall be supported in such a way that its upper surface shall be 2ft. 6ins. above the floor, and shall lie in a horizontal plane.

It shall be made of any material and shall yield a uniform bounce of not less than 8ins. and not more than 9ins. when a standard ball is dropped from a height of 12ins. above its surface.

The upper surface of the table shall be termed the "playing surface"; it shall be non-reflecting, of a dark colour with a white line $\frac{1}{2}$ in. broad along each edge.

The lines at the 5ft. edges or ends of the playing surface shall be termed "end lines." The lines at the 9ft. edges or sides of the playing surface shall be termed "side lines."

2. The Net and its Supports.—The playing surface shall be divided into two courts of equal size by a net running parallel to the end lines and 4ft. 6ins. from each. The net shall be 6ft. in length; its upper part along its whole length shall be 6 $\frac{1}{2}$ ins. above the playing surface; its lower part along the whole length shall be close to the playing surface. The net shall be attached at each end to an upright post 6 $\frac{1}{2}$ ins. high; the outside limits of each post shall be 6ins. outside the side line on the same side.

3. The Ball.—The ball shall be spherical. It shall be made of celluloid, pale in colour; it shall not be less than 4 $\frac{1}{4}$ ins. nor more than 4 $\frac{3}{4}$ ins. in circumference; it shall not be less than 37 grains (2.40 grammes) nor more than 39 grains (2.53 grammes) in weight.

4. The Racket.—The racket may be any material, size, shape, or weight.

5. The Scoring of Points.—A game shall be won by the player who first wins 21 points, unless both players shall have scored 20 points, when the winner of the game shall be he who first wins two points more than his opponent.

6. The Choice of Ends and Service.—The choice of ends and the right to be server or striker-out in every game shall be decided by toss, provided that, if the winner of the toss chose the right to be server or striker-out, the other player shall have the choice of ends, and vice versa, and provided that the winner of the toss may, if he prefer it, require the other player to make the first choice.

7. The Change of Ends and Service.—After five points the striker-out shall become the server, and the server the striker-out, and so on after each five points until the end of the game or the score 20 all. At the score 20 all the striker-out shall become the server, and the server the striker-out, and so on after each point until the end of the game. The player who served first in a game shall be striker-out first in the immediately subsequent game, and so on until the end of a match.

The player who started at one end in a game shall start at the other in the immediately subsequent game, and so on until the end of the match. Where the match consists of only one game, or, where it consists of more than one game, in the deciding game of the match, the players shall change ends at the score 10.

8. Out of Order of Ends or Service.—If a player serve out of his turn, the player who ought to have served shall serve as soon as the mistake is discovered, unless a group of five

services shall have been completed before such discovery, when the service in the subsequent groups of services shall continue, in the same order, as if the sequence had not been discontinuous. In any circumstances, all points scored before the discovery shall be reckoned.

If the players shall not have changed ends when ends should have been changed, the players shall change ends as soon as the mistake is discovered, unless a game shall have been completed since the error, when the error shall be ignored. In any circumstances, all points scored before the discovery shall be reckoned.

9. The Order of Play.—The server shall first make a good service, the striker-out shall then make a good return and thereafter server and striker-out shall each alternately make a good return.

10. A Good Service.—The service shall be delivered by the server projecting or dropping the ball by hand only, without deliberate deformation of the surface, into the air. The ball shall then be struck so that it touch first the server's court and then, passing directly over or round the net, touch the striker-out's court.

At the moment of the impact of the racket on the ball in service, both shall be behind the end line of the server's court and between an imaginary continuation of the side lines.

11. A Good Return.—A ball having been served or returned in play shall be struck by the player so that it pass directly over the net or round the net and touch directly the opponent's court; provided that, if the ball, having been served or returned in play, returns with its own impetus over the net or round the net, it may be struck, while still in play, by the player so that it touch directly the opponent's court.

12. A Let.—The rest is a let :

(a) If the ball served in passing over the net touch it or its supports, provided the service either be otherwise good or be volleyed by the striker-out.

(b) If a service be delivered when the striker-out is not ready, provided, always, that he may not be deemed to be unready if he attempts to strike at the ball.

(c) If either player be prevented by an accident, not under his control, from serving a good service or making a good return.

(d) If either player lose the point, as provided in Law 13 (c), (d), (e), or Law 14, owing to an accident not within his control.

13. A Point.—Either player shall lose a point :

(a) If he fail to make a good service except as provided in Law 12.

(b) If a good service or a good return having been made by his opponent, he fail to make a good return, except as provided in Law 12.

(c) If he, or his racket, or anything that he wears or carries, touch the net or its supports while the ball is in play.

(d) If he, or his racket, or anything that he wears or carries, move the playing surface while the ball is in play.

(e) If his free hand touch the playing surface while the ball is in play.

14. A Point.—Either player shall lose the point :

(a) If before the ball in play shall have passed over the end lines or side lines not yet having touched the playing surface on his side of the table since being struck by his opponent, it come in contact with him or anything that he wears or carries.

(b) If at any time he volley the ball, except as provided in Law 12 (a).

15. In Play.—The ball is in play from the moment at which it is projected or dropped from the hand in service until:

- (a) It has touched one court twice consecutively.
- (b) It has, except in service, touched each court alternately without having been struck by the racket intermediately.
- (c) It has been struck by either player more than once consecutively.
- (d) It has touched either player or anything that he wears or carries, except his racket or his racket hand below the wrist.
- (e) On the volley it comes in contact with the racket or the racket hand below the wrist.
- (f) It has touched any object other than the net supports or those referred to above.

16. Further Definitions.—The period during which the ball is in play shall be termed a rest.

A rest the result of which is scored shall be termed a point.

A rest the result of which is not scored shall be termed a let.

The player who first strikes the ball during a rest shall be termed the server.

The player who next strikes the ball during a rest shall be termed the striker-out.

If the ball, in passing over the net, or round the net, touch it or its supports, it shall, nevertheless, be considered to have passed directly, except as referred to in Law 12 (a).

If the ball in play comes in contact with the racket or racket hand, not yet having touched the playing surface on one side of the net since last being struck on the other side, it shall be said to have been volleyed.

The racket hand is the hand carrying the racket; the free open hand is the hand not carrying the racket.

Doubles.

17.—The above laws shall apply in the Doubles Game except as below.

18. The Table.—The surface of the table shall be divided into two parts by a white line $\frac{1}{2}$ in. broad, running parallel with the side lines and distant from each of them 2 ft. 5 in. This line shall be termed the service-line. The part of the table surface on the nearer side of the net and the right of the service-line in respect to the server, shall be called the server's right half-court, that on the left in respect to him the server's left half-court. The part of the table surface on the farther side of the net, and the left of the service-line in respect to the server, shall be called the striker-out's right half-court, that on the right in respect to the server the striker-out's left half-court.

19. A Good Service.—The service shall be delivered as otherwise provided in Law 10, and so that it touch first the server's right half-court or the centre line on his side of the net, and then, passing directly over or round the net, touch the striker-out's right half-court or the centre line on his side of the net.

20. The Choice of Order of Play.—The pair who have the right to serve the first five services in any game shall decide which partner shall do so, and the opposing pair shall then decide similarly which shall first be striker-out.

21. The Order of Service.—The first five services shall be delivered by the selected partner of the pair who have the right to do so, and shall be received by the selected partner of the opposing pair. The second five services shall be delivered by the striker-out of the first five services and

received by the partner of the server of the first five services. The third five services shall be delivered by the partner of the server of the first five services and received by the partner of the striker-out of the first five services. The fourth five services shall be delivered by the partner of the striker-out of the first five services and received by the server of the first five services. The fifth five services shall be delivered as the first five services. And so on, in sequence, until the end of the game or the score 20 all, when the sequence of serving and striking-out shall be uninterrupted, but each player shall serve only one service in turn until the end of the game.

In a one game match, or the deciding game of the match of more than one game, the pair that served the first five services has the right to alter their order of striking out or that of their opponents at the score 10:

22. Out of Order of Striking-out.—If a player act as striker-out out of his turn, the player who ought to have acted as striker-out shall be striker-out as soon as the mistake is discovered, unless a group of five services shall have been completed before such discovery, when the order of striking-out shall continue in the subsequent groups of services as if the sequence had not been discontinued. In any circumstances, all points scored before the discovery shall be reckoned.

23. The Order of Play.—The server shall first make a good service, the striker-out shall then make a good return, the partner of the server shall then make a good return, the partner of the striker-out shall then make a good return, the server shall then make a good return, and thereafter each player alternately in that sequence shall make a good return.

24. Further Amendments and Additions.—

Law 6.—Alter "server," "striker-out," "winner," "he," to their respective plurals; alter "player" to "pair."

Law 7.—Delete first two sentences of first paragraph. In the third sentence, first paragraph, and in the second paragraph, alter "player" to "pair," "players" to "pairs," "striker-out" to "strikers-out."

APPENDIX TO LAWS.

KNOTTY POINTS.

Decisions of the Rules Committee of the International Table Tennis Federation.

1. Edge Balls.—The phrase, "Table Surface" is to be interpreted as including the top edges and corners of the table-top, and a ball in play which strikes these latter is therefore good and still in play; though if it strikes evidently the side of the table-top below the edge, it becomes dead and counts against the last striker.

2. Ball Returned with Empty Hand.—If a player drop his racket, he cannot return the ball with empty hand. (See definition, "the racket hand is the hand carrying the racket.")

3. Racket Thrown at Ball.—If in returning the ball the racket leave the player's hand, it is a good return only if it were still in his hand at the moment of contact with the ball (see Law 11, "a ball . . . shall be struck"), and if it do not touch the net or move the table surface (Law 13 c, d) before the ball is out of play.

4. Finger-spin in Service.—

(a) Finger-spin *may* be imparted to the ball in service by projecting it by hand into the air and then striking it (Law 10); it *may not* be imparted by holding the ball and rubbing the racket surface against it before it leaves the hand (Law 10, and double-hit, Law 15 c).

(b) No artificial aid must be worn on the fingers to increase finger-spin; a rubber thumb-stall or finger-stall violates Law 10 "projecting or dropping the ball by hand only," since more than the hand is used. (The umpire should however, of course use discretion respecting a merely technical violation caused by a stall or glove worn through injury, and not employed to increase service-spin).

(c) Distinction should be made between that measure of deformation physically inseparable from striking or pressing a resilient object, and a deliberate deformation executed to

alter the shape of the surface to secure improved grip. The latter may invariably be distinguished by a sharp click of celluloid, audible as the surface resumes convexity on leaving the hand, and in no way resembling the finger snap sound of legitimate finger spin.

5. Missed Service.—If a player in attempting to serve miss the ball altogether, it is a lost point (Laws 10 and 15) because the ball was in play from the moment it left the server's hand, and a good service has not been made of the ball already in play.

6. Volleyed Net Service.—A net service is a let not only if otherwise good but also if it be volleyed by the striker-out. (See Laws 12 (a) and 14 (b).)

7. Ball Fractured in Play.—If the ball split or become otherwise fractured in play, *affecting a player's return*, the rest is a let (Law 12 c). It is the umpire's duty to stop play, recording a let, when he has reason to believe that the ball in play is fractured or imperfect; and to decide those cases in which the faulty ball is clearly fractured in actually going out of play, and in no way handicaps the player's return, when the point should be scored. In all cases of doubt, however, he should declare a let.

8. Fixtures.—A moving spectator, a neighbouring player, a sudden noise, i.e., any neighbouring object *in movement* (except a partner) should be regarded as an accident not under control (Law 12 c), interference from which implies a let. A stationary spectator, fixed seating, the umpire, the light, a nearby table, a continuous sound of even volume, i.e., any *relatively constant or motionless* hazard, should not be so regarded, and complaint against interference from it during play should be regarded as void.
