(b) Application shall be renewed with the fee and the requisite certificates for each year for which registration is desired.

(c) Applications for registration shall be reported to and dealt with by the National Executive Committee meeting next following the application provided that, where adequate grounds of emergency exist, the Secretary of the English Table Tennis Association may himself grant provisional registration, subject to review of the grant at the National Executive Committee meeting next following, always provided, where a League or County Association is concerned, that the appropriate signatures have been obtained.

(f) In the event of a refusal of signature by the appropriate League the would-be applicant may appeal to the County Association concerned who may, if they think fit, send forward the application without the League's approval. In the event of a refusal by both the League and the County the would-be applicant may appeal to the National Executive Committee of the English Table Tennis Association, accompanying the appeal with a fee of £1, which may be forfeited in the event of the appeal not being sustained.

3. Code for Registered Members

(c) They shall not allow their names to be used on equipment not designed by them.

(e) When invited to represent their country in a representative match or competition, they shall not play in any clashing event, unless so obliged by previous contract, and shall, in any case, use their best endeavours to obtain release from such clashing con-

tractual obligation, provided they can do so without financial penalty.

(f) They will not appear in any competition or exhibition, other than one organised by a duly affiliated County Association, League, Club or other body of the English Table Tennis Association without the sanction of the Secretary of the English Table Tennis Association and the County Association concerned. This sanction may be granted for a single event or for a series; it shall be withheld only if the promoter of the event, the location of the proposed premises, the details and the nature of the proposed exhibition or the fact of clashing with an event locally organised by an affiliated body or with a co-ordinated County programme so as to be injurious to the latter are such that the event is liable to be injurious to the best interests of Table Tennis.

(b) A copy of these regulations shall be furnished together with the notification of the grant of registration to every Registered Member and shall appear in the handbook.

(NOTE. 1. Registered Members are expected to make themselves available whenever possible when invited to represent not only their country but their county as well, in representative matches and Open Championships. A persistent refusal to make reasonable contribution in this respect may affect the views entertained by the responsible authority towards subsequent applications for registration.)

(NOTE. 2. Players who play abroad under auspices affiliated to the International Federation are subject, as far as payment and other matters are concerned, to the regulations of the Association governing the country where they play. In addition to observing the Regulations of the English Table Tennis Association, with which players are urged to familiarise themselves, every player is advised to ascertain that his Table Tennis abroad conforms to the Regulations of the Governing Body of the Country concerned.

Further, every player is advised to ascertain that the auspices under which he plays are properly affiliated to, and acting in accordance with, the decisions of an Association in membership with the International Table Tennis Federation. Finally, every player is advised not to enter into any contract in this country which will oblige him to be the participant in infringement of the Regulations of the Governing Body of any nation in membership with the International Table Tennis Federation. Disregard of this warning may render a player liable to penalty of another Association, confirmed by the English Table Tennis Association at its request.)

Secretary of the E.T.T.A. immediately they are printed and in the case of a Tournament being held for the first time a proof copy of the Entry Form shall be sent to the Secretary of the E.T.T.A. for approval prior to being issued to competitors.

9. QUALIFYING GROUPS OR ROUNDS: The winners of each group shall go into the first round proper, and no player shall be excluded beyond the first round unless drawn a bye into the second round. For a Tournament to be run entirely on the knock-out principle then not more than two qualifying rounds shall be held. As an alternative, Tournaments may have the option of playing up to four qualifying rounds and that every player who lives within 20 miles of the Tournament shall play in the qualifying rounds provided a competitor already entered in another Open Tournament on the same day as the playing of such rounds may be excused.

10. SEEDING:

(a) No seeding shall be permitted in any Open or Invitation Tournament run on the knockout or group system, except in accordance with conditions which the National Executive Committee may lay down from time to time.

(b) Seeding of competitors is authorised, provided the following points are observed:

- (i) Not more than four players in the Singles and two pairs in the Doubles.
- (ii) Seeded players to be indicated in any published programme and in all lists posted up for the benefit of competitors or spectators.
- (iii) The players seeded in the Singles must be chosen from the highest ranked players entered. The International Selection Committee will provide a Ranking list for use for seeding purposes.
- (iv) No seeding in groups (other than for (i) but players from the same club may be placed in separate groups.
- (v) At the conclusion of the Tournament full details of any seeding made shall be sent to the E.T.T.A.

(c) Seeding of players from other countries at Open Tournaments

- (i) The Current World Ranking List should take precedence over the Current English Ranking List.
- (ii) Ranked players of other countries (not included in World Ranking) may be seeded.
- (iii) Any other Home Countries' players or foreign players may be seeded with the approval of the Secretary of the National Selection Committee (Senior) Mr. D. Peter Lowen, 652 Grand Buildings, Trafalgar Square, London, W.C.2.
- (iv) Ranked players of other countries should be separated in the draw.

11. DRAW: In all cases seeds shall be drawn. In Singles the first two ranked players and in Doubles the first two ranked pairs shall be drawn into top place of the top half and the bottom place of the bottom half. In Singles the next two ranked players shall be drawn into the bottom place of the top half and in the top place of the bottom half. Having first inserted the permitted number of seeds, if any, in their appropriate sections, make a straight draw. Sufficient byes must be introduced in the 1st round to make up a total to the power of two, i.e., 4, 8, 16, and so on; and the number of byes is obtained by subtracting the total entry from the next highest power of 2, e.g. 13 entries means 3 byes (16-13); 49 entries means 15 byes (64-49). Byes are placed equally at the top and bottom of the draw, and if they are an odd number (as above) the extra one goes into the bottom half.

12. FINALS AND ROUNDS: Finals of all events must be staged to commence at a reasonable time, and in any case on not more than two tables simultaneously. Finals of Junior events should be included in the first part of the programme where they are held on the same occasion as Senior events. Where rounds are played during an evening, every effort should be made to conclude at a reasonable hour. Players must be given an adequate rest period between rounds and events.

Finals and rounds of a Junior Open Tournament must be completed by 10 p.m. at the latest.

13. RESTRICTION OF ENTRIES: All entries shall be kept in strict order of date received, and if more entries are received than can be dealt with exclusion shall be on the basis of last received first out.

14. PRIZES: No prizes for an Open Tournament may be given other than medals or trophies except where the value of each is less than £5.

15. PLAYING CONDITIONS:

It should have a white top, depending from the cord suspension, not more than 15 mm wide. (Note that in accordance with Law 2, which provides that the net shall be suspended by a cord, only one cord—a single horizontal cord—may suspend the net and the attachment of the net to the post, if any, must be so loose as not to exert tension and thereby constitute a suspension).

The diameter of the post should not exceed 22 mm and any device for adjusting the height or tension of the cord suspending the net should be situated at the base of the post, should not project more than 7 mm from the post and should, at its highest part, not be higher than 28 mm above the height of the table surface.

The arm holding the post and its prolongation at the upper part of the grip holding the table should not project outside the post at its post ends, nor further than 75 mm over the table at its table end; it should not be wider than 42 mm nor higher than 13 mm above the surface of the table.

(e) **Background.** The background should, for preference, be of a uniform dark green or other uniform dark colour, not light (or patchy) as this tends to unsight the players.

(f) **Playing Space.** For Finals and other staged rounds the minimum playing space shall be 39 feet long by 19½ feet wide. During the rounds the minimum distance of run back from ends of table shall be 12 feet and 8 feet (Doubles 9 feet) between each table where the tables are side by side and 6 feet between an obstacle and the edge of the table.

THE UMPIRES SCHEME

The aims of the Umpires Scheme are to set a standard of good umpiring and to provide recognition for those of proved ability. This is at once an acknowledgment of the efficient service which the Umpire gives and a help to organisers who have to ensure that matches are controlled by capable people.

The Qualities of a Good Umpire

The Umpire must, first and foremost, know and understand the Laws of the Game. But this is not all; he must have practical ability as well. He must be able to apply those laws promptly and correctly whilst a match is in progress; he must be able to keep the score correctly and to announce it clearly and audibly to both players and spectators; he must have the faculty of controlling a match firmly but tactfully; and he must have an understanding of the importance of the part he has to play in presenting a Table Tennis match before a public audience.

The County Umpire

Those who have this theoretical knowledge and practical ability are invited to qualify firstly as County Umpires. To do this, it is necessary first to answer in writing a set of questions designed to satisfy the County Association Umpires Committee about knowledge and understanding of the Laws of the Game (and the Knotty Point interpretations that go with them). The question paper is not intended as a test of memory—the candidate may spend as long as he likes in answering the questions, and may consult the rule book. The one thing he must not do is to copy out someone else's answers.

Test papers may be obtained from the Secretary of the County Association Umpire Committee, or, where there is no County Association, from the E.T.T.A. Office, 652, Grand Buildings, Trafalgar Square, London, W.C.2.

Those whose written test papers are satisfactory become probationary County Umpires, and may be appointed by local organisers to Umpire any match. As soon as the County Association Umpire Committee representatives are satisfied from actual umpiring at matches played before a public audience, that the probationary umpire possesses a satisfactory standard of practical ability, he is accepted as a full County Umpire, and becomes entitled to wear a County Umpire's badge.

The National Umpire

This qualification is available to Umpires who have held the "County Umpire" qualification for at least three years—who have experience of the highest order and who satisfy the most exacting standards of theoretical knowledge and practical ability.

Examinations for this qualification are conducted annually by the E.T.T.A. and candidates must be nominated by the appropriate County Association. Successful candidates are entitled to wear the National Umpire's badge.

The Umpire's Handbook (Second Edition)

A handbook for umpires has been published by the E.T.T.A. This gives more detailed information about the Umpires Scheme, in addition to much useful guidance for umpires.

The names and addresses of the present secretaries of County Association Umpires Committees are given below.

HINTS ON PLAYING CONDITIONS

by G. W. Decker

Floor:

The table should rest on a wood floor. A linoleum covered floor is not good and the bounce of the ball is affected. Linoleum is all right for footwork but pieces should be cut out for the legs of the table to rest on. The holes must be filled with small pieces of wood same thickness as the linoleum. If the cutting is done by an expert the linoleum pieces can be replaced when the table is not in use and the break in the linoleum is hardly noticeable. It has been found that the difficulty of a table on a soft surface where cutting is not possible can be overcome by heavily weighting the table, say 56 lbs. on each leg—4 cwt.

Surrounds:

For exhibitions or special occasions the court should be enclosed by a cloth-covered barrier 2 feet or 2 feet 6 inches high. This can easily be constructed and should be made up in frames 5 feet by 2 feet or 6 feet by 2 feet 6 inches, supported by wooden triangles nailed or screwed at the base of each upright. If the four corner sections of the arena are hinged this will obviate the triangles for eight of the sections. The frames can be covered with green cloth, muslin or sisalcraft which can be glued to each side and then sprayed with green paint. This latter method has been found very satisfactory.

Lighting:

The very minimum for club play and ordinary matches should consist of three 150 watt lamps in 20-inch circular billiards shades—one over the centre of the table and one over each end of the table. A very convenient method is to wire the whole outfit on to an 11 feet beam with a lead to the nearest lampholder and suspend the whole by two chains or cords from the ceiling and six feet apart. The distance from lamp to lamp should be 5 feet 6 inches and the height from the floor 9 feet 9 inches. Unless good lighting is provided in clubs eyestrain and nasty headaches will result.

For Club Room:

Exhibition and Representative Matches:

The playing space should not be less than 36 feet by 18 feet. At the first Championships at Wembley we had 60 feet by 40 feet. The following year it was reduced to 50 feet by 25 feet. Later it was

reduced to 40 feet by 20 feet and has remained at this ever since and is ample. A large area gives the player much further to go when picking up the ball and also dwarfs the spectacle of a player retrieving boundary hits. The thrill of the game is felt much more in the smaller area.

DISTANCE TO FLOOR IS MEASURED FROM BOTTOM RIM OF SHADE

Ten 150 watt lamps are used in 20 inch billiards shades spaced as shown. 200 watt lamps are not too much. Sometimes it is necessary to go much higher with the lights when they obscure the view for spectators in a gallery. Three 1,000 watt lamps on a 16 foot bar at a height of 16 feet will be found satisfactory and gives nearly as much light as the system shown in figure 2. It must be remembered that the light thrown on any given area of surface varies as the square of the distance. A 500 watt lamp at a height of 16 feet (13 feet 6 inches from the table) would not give as much light as 150 watt lamp at a height of 9 feet (6 feet 6 inches from the table). For this reason the higher the lights are the more powerful they should be. Lamps with silvered reflecting surfaces, bright metal reflectors, or looking glass reflectors should never be used as their light distributions are very uneven.

Fluorescent lighting presents special problems because of its stroboscopic effect. Some success has been achieved by using dual tubes but experiments and trials are still proceeding.

On the Umpires' table a jug of water and glasses should be provided, also towels.

For big international matches scoring machines should be used. It is also necessary to provide stop clocks in case the time limit

rule has to be applied. Chess clocks have been used for the purpose but for real exactitude a stop watch or a clinical clock should be used.

Where a floor is slippery scrubbing is essential, but, in cases of emergency, powdered pumice makes a good surface. Its action is, however, abrasive and may do some damage to a highly polished floor. Rinso has been successfully used on many occasions. It has no abrasive action, but makes the floor sticky without doing any lasting harm.

Resurfacing a table is a very technical job but some very good results can be obtained by amateurs if they are lucky. It is essential that the table's surface be absolutely clean and free from grease. The slightest spot of grease will prevent the cellulose paint from "taking" properly. Preferably, the table should be scraped with an ordinary metal scraper and the surface then made smooth with a fairly fine quality of sandpaper.

The surface should then be made good with ordinary cellulose "filler," which can be obtained from any paint shop, and the green paint should be applied with a cellulose spray gun, with a pressure of not less than 40-45 lbs. per square inch. After the green has been allowed to dry thoroughly, the matting solution should be applied. The white line can be added by hand, but cellulose paint must be used.

The consistency of both the green paint and the matting solution can be correctly adjusted by the addition of the necessary quantity of thinners. It is impossible to lay down any hard-and-fast rules as to the percentage of thinners to be added to the paint, but any good cellulose paint sprayer will be able to judge this accurately.

The paint necessary to resurface one table consisting of green undercoat, matting lacquer and thinners, can be obtained for £3 plus postage. Various firms are resurfacing tables at from £8 to £19 10s. 0d. plus cartage, but as with most things the best is cheapest in the end.

THE CHART SYSTEM FOR ARRANGING LEAGUE FIXTURES

Originally produced in the Handbook in 1938 by Leslie Bennett, revised and expanded by G. R. Harrower in 1948.

The Chart System has now become a necessity to all Table Tennis Organisers. In order that clubs can compete in leagues, they must be able, if they enter more than one team, to be *certain* that two teams from the same club will not be called upon to play at home in the same week. This can always be *guaranteed*, providing the divisions making up a league have the same number of teams in each, irrespective of whether the two teams are in one division, or separate, and irrespective of how many clubs enter with two teams.

Most leagues to-day publish their own handbook, and the amount of space taken up by printing fixtures is considerable. This can be cut down to a maximum of two pages (including explaining the chart) by using the chart system. Even if you decide to print your fixtures in full you will find that to obtain satisfactory fixtures you must prepare them with the aid of a chart.

The following charts can be used for divisions from 6 to 16 teams: if an odd number of teams, say 7, you give a blank week to the team due to play No. 8 in each case. Use of these charts guarantees that no team is ever called upon to play three consecutive home or away matches, and that they get the maximum possible number of alternate home and away games. Furthermore, by using the combinations shown underneath each chart, you safeguard your clubs and their few match nights. For example, if you have a club with two teams, one in the premier division and one in the third division, with only one home night, allot the first team to position No. 1 in the premier division and the second team to position No. 5 (for divisions of eight) in the third division. It should be noted that although only four combinations are listed as alternatives for divisions of eight these combinations can be reversed; i.e. 5 and 1, 6 and 2, giving eight combinations for eight places, covering every possibility.

The tables used cover the first half of the season, and the letter "a" denotes an away match. For example, again quoting from divisions of eight, Team No. 1 plays Team No. 8 at home in the first week, and then meets Team No. 7 away in the second week. Obviously, for the second half of the season, the homes and aways are reversed.

Shortage of space precludes giving all details, but further information can be supplied and queries answered if a communication is sent to the Association.

There is a way in which EACH team can play alternate home and away matches, providing that two extra weeks can be devoted to the league programme. Obviously, this is more satisfactory if time permits, and you are recommended to use the charts numbered 6, 7, 8, 9, 10 and 11.

THE ORGANISATION OF AN OPEN TOURNAMENT.

By G. James (Hon. Referee English Open Championships
and Chairman—National Umpires-Referees Committee)

Run an Open Tournament? Easy! Yes, of course it is - once you know how. Fortunately most of us who take on the task do know its major pitfalls but, as one requirement is many willing hands - a commodity not found so readily these days - the following broad coverage may serve as a useful guide to those contemplating shouldering the burden for the first time. At the outset, however, it must be stated that during the 1961-62 season new regulations for open tournaments are being prepared in conjunction with the tournament organisers; the first of these is already law in that the referee is now required to have a competent knowledge of the laws of the game and experience of tournament running. No longer, therefore, is a figurehead or prestige official allowed.

The most vital maxim is that a great deal of time must be spent in advance and never forget that even hours of work beforehand which will save say one minute on every match played, may well make the difference between a smooth-running tournament and one which leaves players disgruntled, officials worn out and the general public wondering whether table tennis really is a great national sport.

The first step is to form the tournament committee under the chairmanship of the referee. This committee should be as small as possible and contain officials all of whom are themselves chairmen of even smaller sub-committees each responsible for the various essential side of the organisation. These are normally a Playing Committee which handles matters connected with the draw and the actual playing of the matches, while the others such as Umpires, Stewards, Box Office, Programmes, Press, Hospitality, etc. have obvious duties. This system generally ensures a fair division of the work and avoids vital matters being overlooked.

The preparation of the entry form is best left to the referee who must take great care to see that the various items are included as laid down in the Association's rules. Here should be mentioned the experimental "pushing play" regulation which is in operation for the current season. As this is new it would be a good idea to include its wording in full as well as the new definition of the racket.

Here perhaps is the best time to mention what is probably the most vital part of any tournament - the provision of umpires. A plentiful supply will enable the tightest schedule to be completed on time but insufficient can ruin the easiest of tournaments. Open tournament rules do not allow the loser umpires system as it has always been felt that the provision by the organisers of an adequate number of umpires is as important as the supply of tables and balls. How this is done is something that I would not dare to be dogmatic about but there are still many

tournaments who manage to make some hospitality contribution to the expenses of leading players - well surely the hard working umpire is just as important if not so obviously so. It would seem that he is equally entitled to the little that is available and a policy which recognises this even to the extent of a very small increase in entry fees might go some way to dealing with the problem.

Entries would normally be received by the tournament secretary, who, working under the referee, arranges for their collation. It still seems impossible for every player to fill in an entry form correctly however simple, therefore the easiest way is to prepare a complete list of all competitors, as entries are received, on the following lines, immediately addressed to each entrant a notification card to be completed later by the playing committee:

No.	Name	Events Entered	Partners	Fees Paid	Owed or to be refunded	Remarks
1	J. Smith	M/S. M/D	J. Brown	4s.	— 6d.	Extension till Sunday
2	Miss J. Green	W/S. W/D, X/D	Miss L. Jones A. Robinson	7s.	+ 1s.	Extension till 2. p.m. Saturday

At the same time separate lists of competitors are built up—one for each event, containing only the entrant's name.

After entries have been closed the basis of the time schedule is worked out according to the number of matches to be played with particular reference to days on which competitors will be required to play in more than one event. Normally 15 minutes is the allowance for a three game set and even with the most experienced organisation it is unwise to try to reduce this.

We are now ready to go ahead with the draw. Here careful attention must be made to the Association's rules on seeding, details of which will be found earlier in the handbook under Rules for Open Tournaments, and note should be taken of the alteration this year which allows the holder to be seeded even if not entitled to such ranking list position. Most organisers are able to make a draw but as the calculation of the number of byes, which should occur only in the first round still causes some confusion, perhaps the following method may assist. To give four semi-finalists and two finalists the number of competitors must be a power of two in the first round. If not, sufficient byes must be introduced in the first round to make the number in the second round a power of two, i.e., either 2, 4, 8, 16, 32, 64, 128, 256, etc. This is done by subtracting the number of entrants from the next highest power of two. This figure is the number having byes into the second round.

Example: With 99 entries the next highest power of 2 is 128, 128—99=29.
In the first round we have 29 byes with 70

actually playing, giving 35 winners+29 byes=64 for the second round.

These byes are then inserted on alternate lines of the draw sheet—half in the top half of the draw and half in the bottom half. Where the number of byes is not exactly divisible by 2, the extra bye should go in the bottom half. To illustrate this the following table shows the number of byes for up to 64 competitors:—

while a draw for 5 players called A, B, C, D and E would appear thus:—

A
Bye
B
C
D
Bye
E
Bye

The easiest way, then, of making the draw, after inserting the byes, if any, is to use numbered pieces of paper—one for each competitor or pair, divide these into halves or quarters according to the permitted number of seeds, insert the seeds in their appropriate section and make a straight draw.

The foregoing has been given as the most usual way of dealing in this country with the "bye" problem. It must, however, be pointed out that the I.T.T.F. who lay down basic regulations for Open tournaments, recommend that the byes should be evenly spaced throughout the draw. The only plan so far devised for this is that of the late Marcel Corbillon whose rather complicated system is as follows:

Having completed the draw the next stage is to schedule each match, i.e., allow one match per table for each period of 15 minutes. This is a fairly straightforward matter so long as care is taken in endeavouring to even out players' rest periods between each round.

A point to remember here is, that as your final will presumably not be played until all preliminary rounds of other events are completed, you can play one half of an event at a time, i.e., if you have 64 first round matches you do not have to play more than 32 of them before beginning the second round. In this way, if you have say only six tables you can play the first half of the draw down to the third round before commencing the first round of the second half of the draw. Thus players' waiting time between rounds is evened out and all your tables are kept in play for a longer period with a corresponding lessening of wasted tables.

If more than one event is being played in the same session it is best to select non-clashing events to follow each other, e.g., Men's singles, Ladies' singles, Men's doubles, Ladies' doubles, Junior singles, Mixed doubles. Here you have only to arrange that your better Juniors are excluded from the first round Mixed doubles matches which are scheduled to be played at the same time as the last Junior matches.

Now, notification cards have to be filled in giving players the times of their first matches in each event. This is really essential as it always seems pointless to insist on a large number of players being available at the commencement of each session when an examination of the schedule shows that many of them can be given but one match in two hours.

We now come to preparations for the actual operation of play. Draw sheets are already completed and each match shown thereon should have its time and number stated beside it. Every match should of course, be numbered, both for checking purposes and for easy reference when Umpires' scorecards are returned. These numbers should never be duplicated but should follow on from event to event, e.g., if there are 127 matches in the Men's singles and 63 in the Ladies' singles the former will be numbered 1 to 127 and the latter 128 to 191 and so on.

It is far simpler to work from a schedule and use the actual draw sheets only for entering up results. This sheet should have sufficient columns of two-inch width to permit one for each table, while lines are ruled across to denote the 15-minute periods. Each oblong thus formed has the number and competitors for each match entered into it (later rounds, will, of course have only a number—the names being filled in as they become available). In this way your matches are played as scheduled with no overlapping, so long as matches are announced for play only in their correct time sequences. Naturally, unless you have unlimited time, there is no need to tie

matches down to table numbers denoted by the column heading on the schedule. They can be put on any available table but must be in their time sequence.

At long last we have reached the commencement stage of play itself. Competitors should report to the Referee with their notification cards. From this their names are easily found on the schedule and play is ready to begin. If sufficient time can be found beforehand it is advisable to have match cards already written out for the first round matches. The appropriate matches are then taken crossed off the schedule and handed to the announcer who allocates them to tables, announces them, and hands the match cards to the Chief Umpire who immediately despatches Umpires to the tables with the cards and balls. The cards, of course, return by the same process.

So your tournament will continue until the final stages which should naturally be on one table only in some sort of staged manner. Nothing, surely, is more unfair to both players and spectators for a final to be put on with a Junior quarter final on one side of it and a Consolation singles battle on the other. Also your finals are your greatest opportunity of drawing a "gate" and thus would be your greatest source of revenue as well as being a duty of yours to the players who have patronised your tournament. They should at least be given the kudos of winning a title before an audience unhampered by the diversions of play on other tables.

Two further points to watch at your finals—never play Consolation singles finals with your major finals. They are seldom popular with either players or spectators and only detract from public interest. Secondly, always present your prizes after each final. If these are left to the end they are but a source of embarrassment to the dignitary who has to dispense them amid a diminishing audience and to the accompaniment of the muffled conversation and clattering chairs of the departing.

In conclusion, keep your officials at the Committee table to the absolute minimum—four is ample, pick your officials carefully—an Umpires' Committee which fails to get Umpires is just as useless as a Press Committee which does not obtain Press publicity—and be prepared to work hard in advance. If these are done there is no reason why the whole tournament should not run successfully and be a credit to the organisers.

Seeding of players from other countries at Open Tournaments

The following decisions are for the guidance of Open Tournament Organisers. The Home Countries are Ireland, Scotland and Wales.

1. The Current World Ranking List should take precedence over the Current English Ranking List.
2. Ranked players of other countries (not included in World Ranking) may be seeded.
3. Any other Home Countries' players or foreign players may

be seeded with the approval of the Hon. Sec. of the National Selection Committee, Mr. D. P. Lowen, 652 Grand Buildings, Trafalgar Square, London, W.C.2.

4. Ranked players of other countries should be separated in the draw.

These notes should be read in conjunction with the Open Tournament Regulations. See Regulation 7, Page 45.

NATIONAL COACHING SCHEME

by JACK CARRINGTON

(Director of Coaching)

The National Coaching Scheme has the following objects:-

To spread as widely as possible a knowledge of correct principles and technique of table tennis;

To interest and enthuse young people in the athletic possibilities of the modern game;

To set standards for instructional work and to promote and encourage the teaching of the game by all possible means, with special emphasis on the building up of a chain of qualified instructors throughout the country.

In furtherance of these aims our Director of Coaching conducts and promotes Coaching Courses (for general students), Study Courses (for potential Coaches), Coaching Rallies for younger players, and various other development activities.

The Director of Coaching is available to advise upon instructional programmes; to advise and examine local instructors, on behalf of League, County or local organisations and educational bodies.

The Committee co-operates with the Central Council of Physical Recreation in the staging of their attractive instructional events.

The E.T.T.A. Basic Coaching Diploma is awarded to candidates who satisfy the National Coaching Committee's requirements as to practical ability, theoretical knowledge, and teaching skill, combined with general presentation. This award carries with it the right to wear the official "Coach" badge.

THE LAWS OF TABLE TENNIS

(As adopted by the International Table Tennis Federation for International Competitions and approved by the English Table Tennis Association)

Singles

1. **The Table.**—The table shall be in surface rectangular, 9ft. in length, 5ft. in width; it shall be supported in such a way that its upper surface shall be 2ft. 6ins. above the floor, and shall lie in a horizontal plane.

It shall be made of any material and shall yield a uniform bounce of not less than 8ins. and no more than 9ins. when a standard ball is dropped from a height of 12ins. above its surface.

The upper surface of the table shall be termed the "playing surface"; it shall be non-reflecting, of a dark colour with a white line 4in. broad along each edge.

The lines at the 5ft. edges or ends of the playing surface shall be termed "end lines." The lines at the 9ft. edges or sides of the playing surface shall be termed "side lines."

2. **The Net and its Supports.**—The playing surface shall be divided into two courts of equal size by a net running parallel to the end lines and 4ft. 6ins. from each. The net, with its suspension, shall be 6ft. in length; its upper part along its whole length shall be 6ins. above the playing surface; its lower part along the whole length shall be close to the playing surface. The net shall be suspended by a cord and attached at each end to an upright post 6-ins. high; the outside limits of each post shall be 6ins. outside the side line on the same side.

N.B. For more detailed specification of the net, see Regulations for International Competitions Recommendations (b). Page 107.

3. **The Ball.**—The ball shall be spherical. It shall be made of celluloid, white, but not brightly reflecting; it shall not be less than 4½ins. nor more than 4½ins. in circumference; it shall not be less than 37 grains (2.40 grammes) nor more than 39 grains (2.53 grammes) in weight.

4. **The Racket.**—The racket may be of any size, shape or weight. Its surface shall be dark coloured and non-reflecting. The blade shall be of wood, continuous, of even thickness, flat and rigid. If the blade is covered on either side, this covering may be either (a) of plain, ordinary pimpled rubber, with pimples outward, of a total thickness of not more than 2mm; or (b) of "sandwich" consisting of a layer of cellular rubber surfaced by plain ordinary pimpled rubber—turned outwards or inwards—in which case the total thickness of covering of either side shall not be more than 4 mm.

Directive from the I.T.T.F.

All Associations are requested to take necessary, practical steps to stop the use and, so far as possible, the manufacture of yellow and light-coloured rackets, permitting only dark red, dark green, dark brown, dark blue and black, as well as the use and manufacture of rackets with reflecting surfaces. Further, rackets are to be the same colour on both sides.

Definition: For the purpose of Law 4 plain, ordinary pimpled rubber shall be defined as follows:—

A single covering with pimples evenly distributed not fewer than 10 nor more than 50 to the square centimetre (60—330 to the square inch) of rubber which, whether natural or synthetic, is non-cellular, and of which the total thickness includes the height of the pimples and adhesion.

5. **The Scoring of Points.**—A game shall be won by the player who first wins 21 points, unless both players shall have scored 20 points, when the winner of the game shall be he who first wins two points more than his opponent (except as provided in the "Pushing Play" Regulation, Page 123).

6. **The Choice of Ends and Service.**—The choice of ends and the right to be server or striker-out in every match shall be decided by toss, provided that, if the winner of the toss chooses the right to be server or striker-out, the other player shall have the choice of ends, and vice versa and provided that the winner of the toss may, if he prefer it, require the other player to make the first choice.

7. **The Change of Ends and Service.**—After five points the striker-out shall become the server, and the server the striker-out, and so on after each five points until the end of the game or the score 20-all*. At the score 20-all* the striker-out shall become the server, and the server the striker-out, and so on after each point until the end of the game. The player who served first in a game shall be striker-out first in the immediate subsequent game, and so on until the end of a match *or as provided in the "Pushing Play" Regulation, Page 123.

The player who started at one end in a game shall start at the other in the immediately subsequent game, and so on until the end of the match. Where the match consists of only one game, or, where it consists of more than one game, in the deciding game of the match, the players shall change ends at the score 10*, or as provided in the "Pushing Play" Regulation, Page 123.

8. **Out of Order of Ends of Service.**—If a player serve out of his turn, play shall be interrupted as soon as the mistake is discovered and shall continue with that player serving who, according to the sequence established at the beginning of the game, should have been the server at the score which has been reached. In any circumstances, all points scored before the discovery shall be reckoned.

If the players shall not have changed ends when ends should have been changed, the players shall change ends as soon as the mistake is discovered, unless a game shall have been completed since the error, when the error shall be ignored. In any circumstances, all points scored before the discovery shall be reckoned.

At the moment of the impact of the racket on the ball in service, the latter shall be behind the end line of the server's court and between an imaginary continuation of the side lines.

11. A Good Return.—A ball having been served or returned in play shall be struck by the player so that it pass directly over the net or round the net and touch directly the opponent's court; provided that, if the ball, having been served or returned in play, returns with its own impetus over the net or round the net, it may be struck, while still in play, by the player so that it touch directly the opponent's court.

12. A Let.—The rest is a let:

(a) If the ball served in passing over the net touch it or its supports, provided the service either be otherwise good or be volleyed by the striker-out.

(b) If a service be delivered when the striker-out is not ready provided always that he may not be deemed to be unready if he attempt to strike at the ball.

17. The above Laws shall apply in the Doubles Game except as below.

18. The Table.—The surface of the table shall be divided into two parts by a white line $\frac{1}{4}$ in. broad, running parallel with the side lines and distant equally from each of them. This line shall be termed the service-line. The part of the table surface on the nearer side of the net and the right of the service-line in respect of the server, shall be called the server's right half-court, that on the left in respect to him the server's left half-court. The part of the table surface on the farther side of the net, and the left of the service-line in respect to the server, shall be called the striker-out's right half-court, that on the right in respect to the server the striker-out's left half-court.

19. A Good Service.—The service shall be delivered as otherwise provided in Law 10, and so that it touch first the server's right half-court or the centre line on his side of the net, and then, passing directly over or round the net, touch the striker-out's right half-court or the centre line on his side of the net.

20. The Choice of Order of Play.—The pair who have the right to serve the first five services in any game shall decide which partner shall do so, and the opposing pair shall then decide similarly which shall first be striker-out.

The Order of Service.—The first five services shall be delivered by the selected partner of the pair who have the right to do so, and shall be received by the selected partner of the opposing pair. The second five services shall be delivered by the striker-out of the first five services and received by the partner of the server of the first five services. The third five services shall be delivered by the partner of the server of the first five services and received by the partner of the striker-out of the first five services. The fourth five services shall be delivered by the partner of the striker-out of the first five services and received by the server of the first five services. The fifth five services shall be delivered as the first five services. And so on, in sequence, until the end of the game or score of 20-all, when the sequence of serving and striking-out shall be uninterrupted, but each player shall serve only one service in turn until the end of the game.

In a one-game match, or in the deciding game of a match of more than one game, the pair that served the first five services has the right to alter their order of striking-out or that of their opponents at the score 10.

22. Out of Order of Striking-out.—If a player act as striker-out out of his turn, play shall be interrupted as soon as the mistake is discovered and shall continue with that player striking-out who, according to the sequence established at the beginning of the game, or at the score 10 if that sequence has been changed under Law 21, should be striker-out at the score which has been reached. In any circumstances all points scored before the discovery shall be reckoned.

APPENDIX TO LAWS: KNOTTY POINTS

Decisions of the Rules Committee of the International Table Tennis Federation

1. Edge Balls.—The phrase, "Table Surface" is to be interpreted as including the top edges and corners of the table-top, and a ball in play which strikes these latter is therefore good and still in play; though if it strikes evidently the side of the table-top below the edge, it becomes dead and counts against the last striker.

2. Ball Returned with Empty Hand.—If a player drop his racket, he cannot return the ball with empty hand. (See definition, "the racket hand is the hand carrying the racket.")

3. Racket Thrown at Ball.—If in returning the ball the racket leave the player's hand, it is a good return only if it were still in his hand at the moment of contact with the ball (see Law 11, "a ball . . . shall be struck"), and if it does not touch the net or move the table surface (Law 13 c, d) before the ball is out of play.

4. Missed Service.—If a player in attempting to serve miss the ball altogether, it is a lost point (Laws 10 and 15) because the ball was in play from the moment it left the server's hand, and a good service has not been made of the ball already in play.

5. Volleyed Net Service.—A net service is a let not only if otherwise good, but also if it be volleyed by the striker-out. (See Laws 12 (a) and 14 (b).)

6. Open Hand in Service: Physical Disability.—Strict observation of the prescribed method of service may be waived where the Umpire is notified, before play begins, that compliance by the player in question is prevented by physical disability.

7. Ball Fractured in Play.—If the ball split or becomes otherwise fractured in play, affecting a player's return, the rest is a let (Law 12c). It is the umpire's duty to stop play, recording a let, when he has reason to believe that the ball in play is fractured or imperfect; and to decide those cases in which the faulty ball is clearly fractured in actually going out of play, and in no way handicaps the player's return, when the point should be scored. In all cases of doubt, however, he should declare a let.

8. Fixtures.—A moving spectator, a neighbouring player, a sudden noise, i.e., any neighbouring object in movement (except a partner) should be regarded as an accident not under control (Law 12c), interference from which implies a let. A stationary spectator, fixed seating, the umpire, the light, a nearby table, a continuous sound of even volume, i.e., any relatively constant or motionless hazard, should not be so regarded, and complaint against interference from it during play should be regarded as void.

9. Service Visible to Umpire.—It is the responsibility of the server to serve so that the correctness of his service can be checked by the umpire. If the server is serving so that the umpire's view is obstructed, the umpire shall warn him and, on any subsequent occasion on which his view is obstructed and he may have doubt about the correctness of the service, the umpire shall call a fault.

EXTRACT FROM REGULATIONS FOR INTERNATIONAL COMPETITIONS

Recommendations:

(a) The table surface should be of hard wood, and either sprayed (for preference) or painted, but not freshly painted, with a dull green solution of cellulose or paint. The table shall be rigidly constructed.

(b) The net should be of a dark shade of green, and should be of mesh not less than 7.5 mm. nor more than 12.5 mm. square. It should have a white top, depending from the cord suspension, not more than 15 mm. wide. (Note, that in accordance with Law 3, which provides that the net shall be suspended by a cord, only one cord—a single horizontal cord—may suspend the net and the attachment of the net to the post, if any, must be so loose as not to exert tension and hereby constitute a suspension).

The diameter of the post should not exceed 22 mm. and any device for adjusting the height or tension of the cord suspending the net should be situated at the base of the post, should not project more than 7 mm. from the post and should, at its highest part, not be higher than 28 mm. above the height of the table surface.

The arm holding the post and its prolongation as the upper part of the grip holding the table should not project outside the post at its post ends, nor further than 75 mm. over the table at its table end; it should not be wider than 42 mm. nor higher than 13 mm. above the surface of the table.

The lower part of the grip should likewise not project beyond

the post, its lower surface should not be lower than 20 mm. below the surface of the table at its post end, nor with the screw of its clamp, lower than 75 mm. below the surface of the table at its table end; any screw adjustment of the clamp should be below the table.

(c) It is preferable that the doubles centre line should not be marked permanently in full length on the table. 1 in. (25 mm.) of the doubles centre line at each end should be permanently marked so that the correct position of the line may be easily found, and a temporary centre line should be made with string and chalk as required, for each Doubles game, being erased again for Singles play.

Note: Disregard of this recommendation does not, however, invalidate the use of the table for Singles.

(d) Floors not of stone or linoleum, but of hard, non-slippery rigid wood, not white nor brightly reflecting.

(e) The background should for preference be of a uniform dark green or another uniform dark colour, not light (or patchy) as this tends to unsight the players.

(f) The nearest possible approximation to the space requirements for World Championships.

(g) **Lighting.** Measured at table height, there shall be a minimum of 40 foot candles over the table, 20 to the edges of an area eight metres long by four metres wide, five to the edges of the playing area, and two by reflection from the near surface of the ball at table end. No light shall be suspended lower than three metres (nine feet nine inches) from the ground.

Clothes. White or light-coloured clothing may not be worn at World Championships, or in International Matches, unless both sides agree.

Associations may, however, make white clothing optional, or obligatory on their own players, at other events within their jurisdiction.

Otherwise, players shall not wear white or light-coloured clothing which might tend to unsight an opponent. The decision as to an offence under this rule shall be with the referee.

Knock-up. Players should be regarded as entitled to a knock-up of two minutes, but without special permission of the referee, not more than two minutes, before the beginning of the match. If all the players concerned in a match have already played that day on that same table, the time of knock-up to which they should be entitled, without special permission of the referee, should be one minute.

Pushing Play. In all events held under the Laws and Regulations of International Competitions, except as below, the following modifications shall be added to the Laws of Table Tennis, Law 5:—

"If a game be unfinished fifteen minutes after its commencement, the umpire (or timekeeper if one be officiating) shall cause the game to be interrupted by declaration of a 'let' and the players shall be notified before the next service that the

game in progress will proceed under the following rules. (slight amendment of wording to ensure it is clearly understood that the sequence of service remains).

"The player shall be permitted to hit the ball 12 times excluding the service stroke, and if all such strokes are safely returned by the opponent, one point shall be scored by the opponent. "The service shall alternate after each point while this rule is in force.

"Where, in a match, this rule has been applied in one game it shall be applied ten minutes after commencement in each of the subsequent games of the match.

"Counting shall be carried out by an official other than the umpire (by the timekeeper if one be officiating)."

ADDENDUM TO THE LAWS OF TABLE TENNIS

"Pushing Play"

At the last meeting of the I.T.T.F. Congress (Peking—April 1961) the question of the 'Pushing Play' Regulation was considered and amended. The I.T.T.F. have agreed to experiment for the coming season with the following regulation and have asked for the Association's views on this experiment at their Advisory Committee meeting to be held in 1962. Therefore for all Open Tournaments for the coming season 1961-62, the following experimental regulation will apply regarding 'Pushing Play' :-

"If a game be unfinished fifteen minutes after its commencement, the umpire (or timekeeper if one be officiating) shall cause the game to be interrupted by declaration of a "let" and the players shall be notified before the next service that the game in progress will proceed under the following rule :-

The player shall be permitted to hit the ball 12 times excluding the service stroke, and if all such strokes are safely returned by the opponent, one point shall be scored by the opponent.

The server for the point interrupted shall serve for the first point after the interruption, and thereafter the service shall alternate after each point whilst this rule is in force.

Where, in a match, this rule has been applied in one game it shall be applied ten minutes after commencement in each of the subsequent games of the match.

Counting shall be carried out by an official other than the umpire (by the time keeper if one be officiating)."

Law 4 - The Racket

At the last International Congress meeting, the question of the colour and the reflecting surfaces of certain rackets was considered. The International Table Tennis Federation therefore made the following announcement regarding this matter :-

"It is noted that many rackets in use at the 26th World Championships and, currently, elsewhere, contravene Law 4 regarding the racket:

"Its surface shall be dark coloured and non-reflecting". Rackets of yellow and other light colourings are in common use in many competitions, and the plain outer surfaces of "reverse" (pimples inward) sandwich is often brightly reflecting.

This must stop. The equipment and Rules Committee are jointly charged with submitting to the Advisory Committee in 1962 a Regulation, with definitions, that shall more clearly define the existing prohibition of light colourings and reflecting surfaces, for provisional adoption thereafter and confirmation at the General Meeting in 1963.

In the meantime, all Associations are requested to take necessary practical steps to stop the use and, so far as possible, the manufacture of yellow and light coloured rackets, permitting only dark red, dark green, dark brown, dark blue and black, as well as the use and manufacture of rackets with reflecting surfaces. Consultations with manufacturers and importers with this object are recommended. Further, rackets are to be the same colour on both sides.

EUROPEAN CHAMPIONSHIPS 1964

These Championships are to be held in London in April, 1964.

They will be staged in the London County Council's £2,000,000 Crystal Palace National Recreation Centre which will be operated by the C.C.P.R.

Make a note now of the date and monthly progress reports will be published in "TABLE TENNIS"

THE SERVICE LAW **Law 10. A GOOD SERVICE**

The service shall begin by the server projecting the ball by hand only, without imparting of spin, up into the air. The ball shall then be struck so that it touch first the server's court and then, passing directly over or around the net, touch the striker-out's court.

The free hand, while in contact with the ball in service, shall be open, with the fingers together, thumb free, and the ball resting on the palm without being cupped or pinched in any way by the fingers.

**Correct Position
(for Forehand Service)**

**Correct Position
(for Backhand Service)**

← The Free Hand

Knotty Point 6. OPEN HAND IN SERVICE: PHYSICAL DISABILITY

Strict observation of the prescribed method of service may be waived where the umpire is notified, before play begins, that compliance by the player in question is prevented by physical disability.

This service law is in force throughout the table tennis world, and must be observed in all organised play by clubs and individuals affiliated to the E.T.T.A.

ENGLAND INTERNATIONAL PLAYERS Compiled by Leslie Woollard.

This is a complete register of every player who has represented England in at least one official senior international match up to and including the season 1960-61, here published for the first time. ("B" Team appearances do not qualify).

The surname of lady players (i.e., single or married) is given in the name under which they played. Both names are given if applicable.

In the past a considerable number of errors of fact have become perpetuated in writing presumably based on unjustified assumptions. This list and the following notes on players with identical surnames should be noted.

NOT RELATED: Baker; Berry; Brown; Cohen; Jones; Merrett; Seaman.

FATHER and DAUGHTER: Bromfield; Harrower.

BROTHERS: Hyde (2); Rumjahn (3).

SISTERS: Emdin; Rowe (twin).

HAYDON: Adrian and Marjorie are brother and sister. Ann is Adrian's daughter.

† indicates that the player is dead.

‡ indicates that we are anxious to find the present whereabouts of the player so indicated. Any information should be sent to Leslie Woollard, 50 Castle Road, Bedford.

THE ORGANISATION AND MANAGEMENT OF INTERNATIONAL MATCHES

1. EQUIPMENT AND PLAYING CONDITIONS:

- (i) **Ball.** The English Table Tennis Association will advise organisers on the make of ball to be used for the match and the programme must specify the name of the ball adopted.
- (ii) **Table.** The table surface should be of hard wood, and either sprayed (for preference) or painted, but not freshly painted, with a dull green solution of cellulose or paint. The table should be rigidly constructed and preferably should be one of a recognised standard make, but prior approval must be obtained from the Hon. General Secretary of the Association for the particular make of table proposed to be used.
- (iii) **Nets and Posts.** The net should be of a dark shade of green, and should be of a mesh not less than 7.5 mm nor more than 12.5 mm square. It should have a white top, depending from the cord suspension, not more than 15 mm wide (Note that in accordance with Law 2 which provides that the net shall be suspended by a cord, only one cord—a single horizontal cord—may suspend the net and the attachment of the net to the post, if any, must be so loose as not to exert tension and thereby constitute a suspension). The diameter of the post should not exceed 22 mm and any device for adjusting the height or tension of the cord suspending the net should be situated at the base of the post, should not project more than 7 mm from the post and should at its highest part, not be higher than 28 mm above the height of the table surface. The arm holding the post and its prolongation as the upper part of the grip holding the table should not project outside the post at its post ends, nor further than 75 mm over the table at its table end; it should not be wider than 42 mm nor higher than 13 mm above the surface of the table. The lower part of the grip should likewise not project beyond the post, its lower surface should not be lower than 22 mm below the surface of the table at its post end, nor, with the screw of its clamp, lower than 75 mm below the surface of its table end; any screw adjustment of the clamp should be below the table.
- (iv) **Floor.** The floor should not be of stone or linoleum, but of hard, non-slippery rigid wood, not white or brightly reflecting.
- (v) **Background.** The background should, for preference, be of a uniform dark green or another uniform dark colour, not light (or patchy) as this tends to unsight the players.
- (vi) **Space and Lighting.** The nearest possible approximation to the space and lighting requirements for World Championships should be provided. Where possible suitable surrounds should be placed around the playing space.

NOTE: World Championship minimum playing space is

39' long and 19' 6" wide and 9' 9" high, and for lighting, measured at table height, there shall be a minimum of 40-ft. candles over the table, 20 to the edges of an area eight metres long by four metres wide, five to the edges of the playing area, and two by reflection from the near surface of the ball at table end. No light shall be suspended lower than three metres (nine feet nine inches) from the ground.

- (vii) **Clothes.** White or light coloured clothing may not be worn at International matches unless both sides have agreed beforehand. The decision as to an offence under this rule shall be with the Referee.
- (viii) **Time Clock.** A time clock should be provided which if necessary may be obtained from the English Table Tennis Association. A gong should also be available.
- (ix) **Table and Chairs.** A small table and two chairs should be placed on one side of the table for the Umpire and Time-keeper. On the table should be time clock, gong, copy or programme, score pad, pencils, balls and a water jug and glass. The general advice given by the National Umpires Committee is that the Umpire, unless provided with a raised chair, should stand for doubles. It may not be possible for this arrangement in some halls if it interferes with the view of the spectators.
- (x) **Scoring Device.** If possible a scoring device to display the points score should be provided for the benefit of the players and the public. If necessary this can be obtained by communicating with the E.T.T.A.
- (xi) **Practice.** Facilities should be available for teams to practice before the match.

2. **REFEREE:** The English Table Tennis Association will appoint a Referee who will be responsible for the general conduct of the contest and the carrying out of the Regulations governing International competitions. The decision of the Referee shall be final on any question of interpretation of the Laws of the Game arising in the course of the match. An appeal to the Committee responsible for organising the match from a ruling of the Referee may be made on a question of match conduct not covered in the Laws of the Game, such as time or conditions of play, etc. but in no circumstances shall it be made on a question of interpretation of rules. Any appeal can only be made by the Captain of a team.

3. **UMPIRES:** The local organising Committee shall arrange for Umpires through the appropriate County Secretary (address of whom are printed in the Official Handbook on page 73.) Umpires should be National Umpires where possible but, failing this, qualified County Umpires. The Referee may change Umpires if he thinks this is necessary. The decision of the Umpire

shall be final on any question of fact occurring whilst he is controlling a match.

It is recommended that all Umpires and other match officials in the playing area should be suitably and uniformly clad. Normal uniform would be grey flannel trousers or skirt and dark blue blazer.

4. **MANAGEMENT COMMITTEE:** The English Table Tennis Association will where necessary delegate to an Association, League or Club the organisation of the match. A small Management Committee should be appointed by the Association, League or Club. A visiting Association and the English Table Tennis Association shall be entitled to nominate at least one representative to the Management Committee of any international match in which it is taking part.

NOTE: No agreement between captains can modify a decision on fact by a competent umpire or rule by the competent referee, or on other questions of match conduct by the competent Committee.

5. **E.T.T.A. REPRESENTATIVE:** For each contest the English Table Tennis Association will appoint an official representative to attend on behalf of the Association who will serve on the Management Committee. The representative will only be required to attend meetings in the event of an appeal as provided in Paragraph 2.

6. HOSPITALITY:

- (i) Hospitality should be provided for all playing members of the visiting and home teams, including non-playing Captains. In addition suitable arrangements should be made for the Referee and the E.T.T.A. representative and any National Officers of the visiting and home teams who may be present.
- (ii) If teams are required to stay the night they should be placed in one hotel if this is practicable.
- (iii) From the playing point of view it is not necessary to arrange for an interval but, if local organisers require to do so then light refreshments should be provided for the teams.
