The ball shall be placed on the palm of the free hand, which must be stationary, open and flat, with the fingers together and the thumb free. The free hand, while in contact with the ball in service, shall at all times be above the level of the playing surface.

Service shall then begin by the server projecting the ball by hand only, without imparting spin, near vertically upwards, so that the ball is visible at all times to the umpire and so that it visibly leaves the palm.

As the ball is then descending from the height of its trajectory it shall be struck so that it touch first the server's court and then, passing directly over or around the net, touch the receiver's court. At the moment of the impact of the racket on the ball in service, the ball shall be behind the end-line of the server's court or an imaginary extension thereof.

12 On page 111 of E.T.T.A. Handbook 1968/69 Part 1, at end of Notes to Law 6, add new note 5:

WARNING: It is the responsibility of the server to serve so that the correctness of his service can be checked by the umpire. If the server is serving so that the umpire's view is obstructed, the umpire shall warn him and, on any subsequent occasion on which his view is obstructed, and he may have doubt about the correctness of the service, the umpire shall call a fault.

13 Add the following note at the end of the Laws:
