TABLE TENNIS

OFFICIAL
HANDBOOK
PART II - 1977/78

**You'll be pleased to hear
that round balls are now being used
in all European league matches.**

The Dunlop Barna Super is made in a completely different way from ordinary table tennis balls. Even the basic material is different. The result is a long lasting ball which is far closer to a perfect sphere. So its flight path is more consistent and it bounces more truly.

Which is why world champions play the Dunlop ball and why the European Table Tennis Union have adopted it exclusively for the 1977/78 season and for all European Table Tennis league matches.

WE MAKE EVERYTHING BUT THE RULES.

We make British table tennis bats. Bats that have won many English and European championships, yet still come at virtually half the cost of comparative imported bats.

We make table tennis balls, the ones selected exclusively for the 1977 World Championships.

We make tables designed by a former World Champion and made by British craftsmen from finest materials.

We have quality nylon nets and the posts, too.

In other words, Hallex supply everything to do with table tennis and in so doing have become one of the world's biggest manufacturers.

Perhaps playing only with Hallex should become one of the rules of table tennis!
