

## MAG Update Note for National Council – May 2021

The focus of MAG continues to be completing reports that have been produced from earlier project work and engagement activity. We have started one new project on “transparency & accountability”.

### MAG Meetings

There have not been any MAG meetings during the period. The next MAG is scheduled for 13<sup>th</sup> June.

### Current Projects

- (a) **Clubs Development** – The report has been submitted to the Board and we expect it to be published on the TTE website soon. We have recommended that we work with the Board and TTE staff to develop an action plan to take forward the actions identified in the report.
- (b) **Performance** – We arranged an engagement session with parents, coaches and current and former international players to discuss the MAG report on Performance and what next steps MAG should take in relation to Performance. We have prepared a summary of the discussion which will be discussed with the Performance Team.
- (c) **Reducing the Decline in Players in 17-24 Age Range** – We have met with members of the TTE Development Team to ensure that the project complements work already undertaken by the Development Team.
- (d) **Accountability & Transparency** – We have held two meetings of the project team to formulate ideas and outline some recommendations. We have subsequently shared these ideas with the TTE Chair and Chief Executive to check that our ideas are broadly pointing in the right direction. The next step is to discuss our ideas with the Board more generally.

### MAG Annual Report

We are preparing the MAG Annual Report which will outline our activities over the last 12 months. This will be published on the MAG pages of the TTE website during June, well before the TTE AGM. A summary of the Report has been prepared for inclusion in the TTE Annual Review.
